Tirkangkaku is the Aboriginal name bestowed upon Adelaide University by the Kurna People.

Tirkangkaku means "Place of Learning" and is a gift representing 65,000 years of continuous discovery.

In Kurna culture, learning is never passive – it's active and transformative.

Tirkangkaku is a place where all knowledge systems can come together and learn from each other. A place where the world's oldest living culture shapes cutting-edge discovery. A place where we are creating the future, while honouring the past.

Acknowledgement of Country

We respectfully acknowledge the Kaurna, Boandik, and Barnjarla First Nations Peoples and their Elders past and present, who are the Traditional Owners of the lands that are home to our campuses across Adelaide and South Australia.

Member of the Group of Eight

Australia's leading research-intensive universities.

Ranked #82 in the world

and 8th nationally in the 2026 QS World University Rankings.

Welcome to Adelaide University

**Adelaide University is Australia's
university for the future ranked
in the global top 100.***

** Ranked equal 82, 2026 QS World University Rankings*

We are transforming higher education by combining face-to-face learning with advanced digital technologies to create a flexible, student-centred experience. Degrees are designed to be stackable and personalised, supported by digital learning, industry partnerships and extensive work-integrated learning opportunities.

The Common Core provides interdisciplinary skills that employers value – ensuring students graduate with real-world knowledge and experience. Across all programs, Adelaide University fosters strong graduate qualities, embeds First Nations perspectives and provides equity-focused support so every student can succeed.

Go8 member

We are part of Australia's elite research-intensive university group.

Connected

Australia's most connected university:
Building on our 7,000 strong partnerships with industry and collaborators.

7,000

Real-world

Real-world experience:
Work-integrated learning is embedded across all programs, giving students hands-on opportunities.

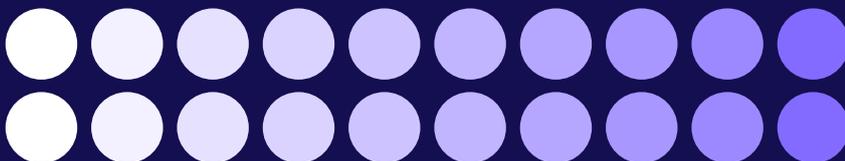

Equity and inclusion

We champion inclusive education through First Nations Knowledges and equity-focused pathways.

Transformative and flexible education:
Australia's most accessible, contemporary and future-focused teaching and learning experience.

Transformative

Our campuses

Experience vibrant campus life with face-to-face lectures, social spaces and modern facilities.

Or, choose flexible 100% online study supported by expert teaching and a connected learning community.

Perfectly positioned on North Terrace, our Adelaide City Campus is where cutting-edge connects with tradition.

The campus encompasses precincts both east and west of the city. You'll find the latest in teaching and research facilities, along with buildings steeped in history, contemporary spaces and vibrant galleries.

Our regional campuses at Mount Gambier and Whyalla are well-positioned within their respective regions, which offer a relaxed lifestyle. At each of our campuses you'll find modern study and meeting spaces, including cosy student lounges, rooms for private or group study, quiet zones and collaborative areas.

Your learning will be well supported in our technologically advanced hospital and dental facilities, cutting-edge simulation facilities, suites, laboratories, and community clinics.

Adelaide City Campus

Discover vibrant social hubs where you can join a range of clubs and teams, or meet friends after class. Unwind and stay active at the on campus sporting fields and fitness hubs.

Enjoy a wide range of dining choices across our Adelaide City Campus precincts including casual favourites such as burgers and salads, plus Vietnamese and Japanese eateries. Mint café will become your go-to at

Whyalla campus while you can grab something fresh and tasty from the canteen at Mount Gambier Campus.

You'll never be far from your next class with affordable on campus student accommodation at Whyalla, while city loop buses will get you around Mount Gambier with ease. Adelaide City Campus is accessible by train, tram and bus with nearby car parking and bike storage available on campus.

Whyalla Campus

Flexible online learning

You'll enjoy the same world-class teaching, personalised support and sense of community as our on-campus students – without needing to attend in person. Access digital learning environments, collaborate in virtual classrooms and connect with your peers and teachers.

You'll have flexible access to coursework, interactive resources and dedicated online student services to help you succeed wherever you are.

Mount Gambier Campus

Adelaide City Campus is accessible by train, tram and bus.

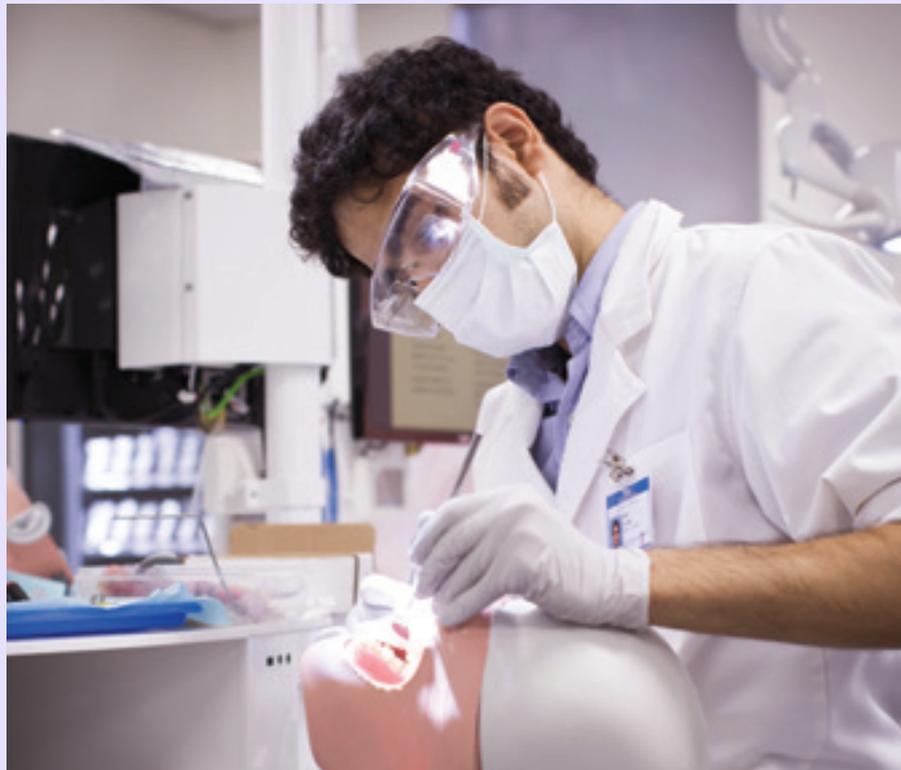

07

Adelaide University has seven campuses in total.

World-class facilities

Technologically advanced simulation facilities

Build your skills and knowledge in safe and supportive simulated healthcare settings. Adelaide University is home to the most technologically advanced simulation facilities in Australasia, and the only facility accredited by the Society for Simulation in Healthcare for excellence in learning and teaching. Our simulated hospital has been designed to align with real-world facilities and includes high-tech manikins representing patients across the lifespan, from neonatal to adults. Our Dental Simulation Clinic includes 90 individual simulators and two fully equipped dental surgeries.

Dental Simulation Clinic

Physiotherapy community clinic

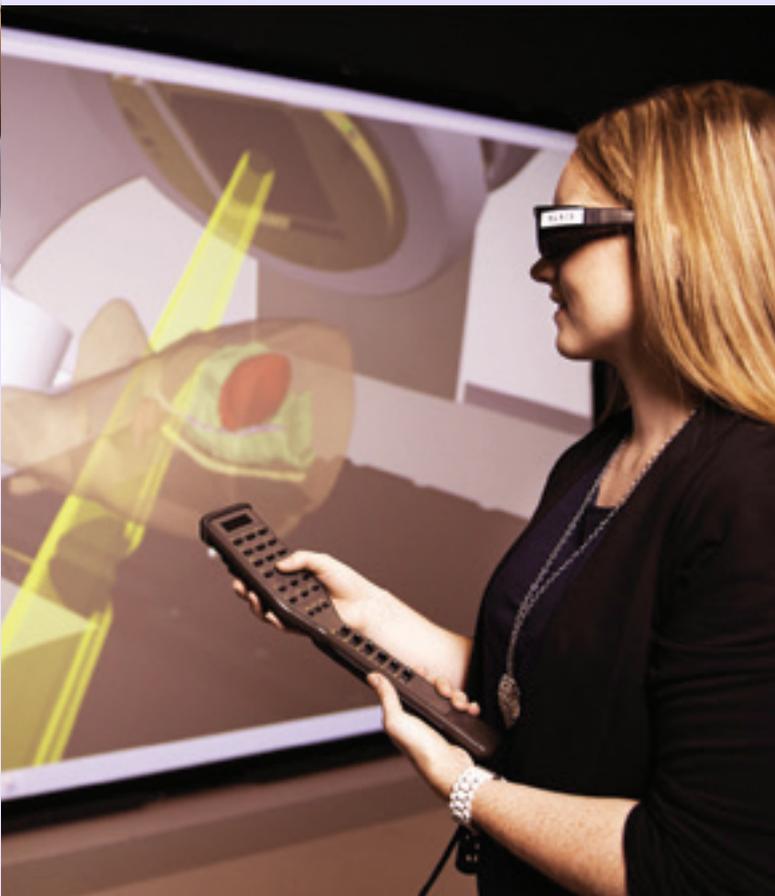

Community clinics

Adelaide University operates a range of on campus healthcare clinics that will provide you with real-world, hands-on learning opportunities. Supported by experienced health professionals, you'll develop confidence and deepen your knowledge through patient interactions. Our clinics include high performance and exercise physiology, physiotherapy, podiatry, occupational therapy, speech pathology and midwifery.

Anatomy Lab

Labs for learning

Our wet/dry anatomy lab will provide you with a dedicated space to build the anatomy knowledge essential to your chosen healthcare discipline. You'll be able to study the relationships and function of various bones, tissues, organs, ligaments and tendons in order to make diagnoses and explore effective treatments. As a laboratory medicine student, you'll be able to expand your skills in diagnostic pathology and research in our well-equipped histopathology and haematology labs. You'll have access to the equipment to study tissue and blood samples, explore cross-matching for blood transfusions, screen for cancer cells and more.

Clinical training suites

Adelaide University is one of the few universities in Australia that has a Virtual Environment Radiation Therapy (VERT) training suite on campus. As a medical radiation student, VERT will enable you to look at the internal structures of a patient and virtually see the radiation dose being delivered. Pharmacy students will benefit from our integrated learning suite which includes a virtual range of pharmacy's medicine range, allowing you to simulate patient interactions. You'll learn to dispense medicines, counsel patients, and develop critical clinical service delivery skills in our supportive training suite.

Virtual Environment Radiation Therapy (VERT) training suite

Study 100% online

Study with us from anywhere in Australia.

Whether you're looking to advance in your field or it is time for a career change, our 100% online mode might be what you're looking for. We offer the chance to study to anyone in Australia, with 50 programs covering Business, Marketing and Communication, Health Science, Construction, and Psychology.

Flexible learning for busy people

Our courses are designed to give you the flexibility to study on your own terms, with learning resources available on-demand. Fit study around your work, family, and life commitments without compromising the quality of your education.

Designed and delivered by our experts

We're committed to creating quality programs and learning experiences. Our academics create learning materials with the latest insights from industry, which our online learning experts bring to life using interactive technology and tools like videos, quizzes, and podcasts.

Studying online doesn't mean studying alone

You'll be supported throughout your 100% online studies by a dedicated Student Assist Officer and have access to academic and technical support seven days a week - even outside of regular hours. You will also become part of our online learning community with the opportunity to connect with other students across Australia.

Scholarships

adelaideuni.edu.au/study/scholarships

Adelaide University is dedicated to helping more people access higher education through a wide range of scholarships designed for all backgrounds. Discover scholarships for academic excellence, leadership, Aboriginal and Torres Strait Islander students and more. A scholarship could be the incentive you need to launch your future with us and ensure you're prepared to step forward with confidence toward your career goals.

We're here to support your studies and help you thrive at university. Become the best you can be with an Adelaide University scholarship.

Adelaide University Vice Chancellor Scholarship

A scholarship rewarding exceptional academic achievers. Recipients receive a stipend of up to \$10,000 per annum and a 100% fee waiver for up to four years¹.

Adelaide University Future Leaders Scholarship

A scholarship recognising high academic achievers who demonstrate leadership potential and community service. Recipients will receive a stipend of up to \$15,000 per annum for the duration of the degree.

Adelaide University Aspire Scholarship

A scholarship acknowledging academic achievers who demonstrate leadership potential and community service. Recipients will receive a stipend of up to \$5,000 per annum for the duration of the degree².

Adelaide University Principals Scholarship

A scholarship rewarding students who have excelled in their school academically and exhibited qualities of active service to their school and/or community. Recipients are nominated by their school principal and will receive a stipend of up to \$3,000 per annum for three years.

Adelaide University Attainment Scholarship

A scholarship supporting students who demonstrate leadership and active community service within a work, academic or community setting and are commencing university studies through a non-ATAR or equivalent selection rank, ie. International Baccalaureate admissions pathway.

Adelaide University Career Catalyst Scholarship

A scholarship supporting students to develop their careers, with the support of an employer. Eligible recipients will receive a 30% fee waiver for the duration of their degree.

Adelaide University Postgraduate Grant

A grant for students looking to advance their career opportunities or change career direction by commencing a Master by coursework degree. Recipients will receive a one-off payment of \$5,000.

Adelaide University Access Scholarship

A scholarship supporting students who have demonstrated financial barriers to accessing post-secondary study. Recipients will receive an annual stipend of up to \$6,000 per annum³ for the duration of the degree.

Adelaide University Online Grant

A grant dedicated to students studying online and who have demonstrated financial barriers to accessing post-secondary study and/or reside in a rural, regional, or remote community. Recipients will receive a one-off payment of \$1,500.

Adelaide University Aboriginal and Torres Strait Islander Leaders Scholarship

A scholarship acknowledging exceptional academic achievement of Aboriginal and Torres Strait Islander students who demonstrate leadership potential or active service in their school or community. Recipients will receive a stipend of up to \$15,000 per annum for the duration of the degree.

Adelaide University Aboriginal and Torres Strait Islander Aspire Scholarship

A scholarship acknowledging academic achievement of Aboriginal and Torres Strait Islander students who show leadership or active service in their school or community. Recipients will receive a stipend up to \$5,000 per annum for the duration of the degree.

Adelaide University Aboriginal and Torres Strait Islander Student Scholarship

A scholarship supporting Aboriginal and Torres Strait Islander students who have demonstrated financial barriers to accessing post-secondary study. Recipients will receive an annual stipend of up to \$6,000 per annum³.

¹ Some degree exclusions apply.

² This scholarship is offered to students who have been shortlisted for the Adelaide University Leaders Scholarship but were not awarded the scholarship, or received a conditional offer but did not meet the 95 Selection Rank criteria.

³ Stipend amount will be awarded on severity of financial hardship.

The Adelaide Attainment Model

Adelaide University is redefining what the future of higher education looks like in Australia.

Here, traditional learning meets the future – face-to-face experiences enriched by the latest digital technologies, giving you the flexibility to learn your way, while staying deeply connected to your peers and teachers.

We aim to foster the most flexible, future-focused learning and teaching environment that puts you at the centre.

Your studies won't be confined to just the classroom. You'll work alongside industry leaders who help shape what and how you learn, ensuring every experience is practical, relevant and inspired by the real world. Through hands-on projects and professional collaborations, you'll gain the skills and confidence that future employers are already looking for.

But your education at Adelaide University goes beyond preparing for a career – it's about readying you for the world. Under the guidance of expert industry partners, you'll learn to think critically, act ethically and create inclusively, ready to shape an innovative and global future.

Education for the future

Stackable degree structures

Our degree structures allow multiple entry pathways and transition points, creating individual and personalised study journeys. You can easily transition between undergraduate programs, and we offer a range of innovative options to extend your undergraduate studies into postgraduate pathways.

Digitally rich learning environment

At Adelaide University, digital technology is not just a tool for delivering content – it provides instant content delivery to support active learning, collaboration, and engagement, enhancing the accessibility and personalisation of our teaching and learning.

Industry informed curriculum

Connect with professional networks while you study. Our curriculum is designed in partnership with over 7,000 industry partners, including those who collaborate on research with Adelaide University. This means the skills we teach are contemporary and industry aligned, informed by the engaged research we undertake, and designed to shape employable graduates.

Community embedded learning

Work-integrated learning – such as placements and clinics – is a key part of our education and is embedded in every program we teach. This hands-on experience provides practical, applied knowledge, and helps students develop a professional network, so you graduate with strong industry experience and contacts.

Depending on your chosen degree, work-integrated learning can include:

- **Internships and placements:** Get hands-on experience by working with real organisations in your field as part of your degree.
- **Industry projects:** Collaborate on real-world projects that solve genuine industry or community challenges.
- **Simulation:** Build practical skills through realistic workplace simulations or online experiences.

Interdisciplinary understanding: The Common Core

The Common Core is a suite of interdisciplinary courses designed to prepare Adelaide University graduates with transferable skills employers value most. These courses foster collaboration and broad perspectives, and an understanding of how each field shapes and connects with society.

You'll select the Common Core courses you want to study from six knowledge areas, engaging with peers across the university, including:

- **Artificial Intelligence:** Introduces the fundamental principles, techniques, and real-world applications of AI.
- **Data Knowledges:** Explores data types, sources, and structures, best practices for collecting, managing, and analysing data, and strategies for evaluating and communicating information effectively.
- **Entrepreneurship and Design Thinking:** Develops the tools and mindset to identify opportunities, develop sustainable solutions, and drive positive change.
- **Ethical Knowledges:** Uncovers the fundamental principles of moral reasoning and their application to real-world situations.
- **Intercultural Understanding:** Fosters cross-cultural communication and competency and a deeper understanding of how one's cultural background shapes life experiences.
- **First Nations Knowledges:** Learning and centring Aboriginal voices and ways of knowing, being and becoming.

The Adelaide Academy

The Adelaide Academy is a future-focused initiative designed to offer high-potential and high performing students the opportunity to take their studies to the next level. As Adelaide University establishes itself, the Academy will grow to offer a suite of enriched learning experiences that go beyond the core curriculum, including:

- Advanced discipline-based coursework
- Industry engagements and internships
- Research projects
- Interdisciplinary workshops and challenges.

The Academy is being developed to recognise and support academic excellence and ambition and will evolve over time to reflect the needs of high-performing students and the expectations of a competitive global workforce.

Fostering our Graduate Qualities

At Adelaide University, our Graduate Qualities are about more than just what you learn – they're about who you become. These values and skills are built into everything we teach, helping you grow into a confident, capable graduate ready to take on your future.

You will graduate as a:

- **Lifelong learner** with enduring passion for personal and professional development.
- **Ethical leader**, who does what is right over what is easy.
- **Strategic problem solver**, who approaches challenges with analytical rigour and creative insight.

- **Global citizen**, with respect for your role in the world and your capacity to enact positive change.
- **Resilient thinker**, able to succeed by harnessing critical, creative and adaptable thinking.
- **Trusted communicator**, who can articulate ideas effectively and inspire change.

Embedding First Nations knowledges

At Adelaide University, you'll learn from and with Aboriginal voices, perspectives and knowledge holders.

First Nations Knowledges are woven throughout your studies, in all study areas, through genuine collaboration with Aboriginal scholars, Elders, and communities – ensuring cultural respect, inclusion, and understanding are part of every learning experience.

Our equity-aligned education

At Adelaide University, we believe everyone deserves the chance to succeed. We offer equity-focused pathways and personalised support to help you overcome barriers and achieve your study goals.

This includes:

- An environment that supports diverse student participation.
- Equitable access to a world-class education for learners of potential.
- Advancing the access, participation and success of First Nations Peoples.
- Supporting you through your university experience to help you succeed in your learning and career journey.

Exceptional student experience

From day one, we're here to support you on your student journey. On campus and beyond, you'll have access to dedicated teaching and supporting staff, and a wide range of services.

Aboriginal student services

Culturally safe and dedicated support services including scholarships, study help, peer mentoring and more, are available to Aboriginal students both on campus and online.

Academic support

Whether you need general study guidance or more specific assistance, we've got you covered. You'll have access to writing, study skills and maths support, along with peer-led learning and 24/7 online support, so you can get help anywhere, anytime.

Access and inclusion

If you have a disability, impairment, chronic health condition, or significant caring responsibilities, you can access confidential and personalised advice, adjustments and support through online services to help you reach your study goals.

Accommodation

Find your home away from home. We'll support you to find and apply for accommodation that's convenient, safe, accessible and right for you, including guidance for regional students.

Career services

Prepare for a lifetime of success. Attend networking and industry events, build career planning and management skills, access job opportunities and more.

Counselling

Take care of your personal wellbeing with access to qualified counsellors on campus and online. Sessions are free, confidential and available regardless of your location.

Health clinics

Stay healthy by accessing a range of on campus health clinics at reduced student rates including GP services, physiotherapy, podiatry, psychology and more.

Orientation

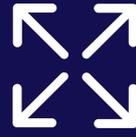

Take the first step toward a fulfilling experience with our Orientation program. Join a campus tour, gain an understanding of your degree, meet people you'll be studying with and enjoy fun activities and events. You'll also be able to participate online through live sessions and virtual tours.

Religious needs

Private prayer rooms are available across most of our campuses. You can also join a faith-based student group or connect with a range of religious chaplains and pastors on campus.

Sports and fitness

Join a sports team, take a group fitness class, or hit an on campus gym or pool between classes. There's something for everyone to stay fit and feel good.

**Wide range
of services**

**Dedicated teaching
and support staff**

Student clubs, societies and association

Your student association is the voice and social heart of your student experience. With a wide variety of clubs and societies, you'll be sure to find your people and your passion.

Pathways to Adelaide University

There are many ways you can gain entry into one of our degrees.

Selection rank (ATAR plus adjustment factors)

If you have qualified for the South Australian Certificate of Education (SACE) or hold an equivalent recent year 12 qualification, including the International Baccalaureate Diploma (IB), and have achieved a competitive selection rank, you can use this as a pathway into university.

Your Selection Rank (ATAR plus any applicable adjustment factors) will be used to compete for a place in a university degree.

For most of our undergraduate degrees, you must not have completed more than 2 years full-time equivalent university study (48 units) to use your year 12 results.

Some degrees take additional factors into account as well as or instead of your ATAR, such as auditions, the University Clinical Aptitude Test (UCAT), oral interviews, etc.

Guaranteed Entry

Choose your preferences with confidence. We offer Guaranteed Entry for most undergraduate degrees. There's no need for a separate application – you're automatically considered when you list your preferred Adelaide University degree as your highest preference.

If you don't achieve the grades for Guaranteed Entry, you'll still be considered on a competitive basis for available places in your preferred degree.

ATAR based

You'll be eligible for an ATAR based Guaranteed Entry place when you:

- Achieve an ATAR (including adjustment factors) that is equal or higher to the Guaranteed Entry score
- Meet any admissions criteria for your degree, for example a subject prerequisite.

Subject based

Did you achieve solid grades in year 12, but didn't get the ATAR you were expecting? You'll be eligible for a Subject based Guaranteed Entry place when you:

- Complete SACE (or equivalent) and have an ATAR of 50 or higher (not including adjustment factors)
- Utilise your best three grades from 20-credit subjects
- Meet any additional admissions criteria such as subject prerequisites.

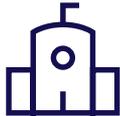

**Selection
rank**

**Guaranteed
Entry**

**Admission
test**

**Higher
Education GPA**

**Internal
transfer**

**VET
studies**

Admission tests

STAT (Skills for Tertiary Admissions Test)

Never completed year 12 or any other higher education? You may wish to use the Skills for Tertiary Admissions Test (STAT) to gain entry to university. The STAT is a two-hour, multiple-choice test designed to assess a range of skills and knowledge needed to study at university.

The Australian Council for Educational Research (ACER) coordinates the STAT. To sit the test, you'll need to be over 18 years old before 1 February in the year that you wish to commence study. If you have been enrolled in university in the last two years, you must not have completed more than two years (full-time) tertiary study in total.

For more information, visit stat.acer.org/au

Higher Education GPA (Grade Point Average)

If you have already completed at least six months (full-time) of a recognised higher education degree at a recognised higher education institution, you can use your Grade Point Average (GPA) to gain entry to Adelaide University.

Internal transfer

Perhaps you gained entry to a degree that wasn't your first preference or, after completing a few courses, have changed your mind about what you'd like to study. You can use your GPA (or any eligible previous qualifications) to apply for what is called an internal transfer.

This is an option available to students who may have already started studying in one degree and, for a range of different reasons, would like to transfer into another degree at the same university. Please note that not all degrees are available via internal transfer. If unsure, you can contact our friendly student advisers for assistance.

Vocational Education and Training (VET) Studies (Certificate IV or higher)

Have you completed a VET qualification at a Certificate IV or higher? Your completed qualification can gain you entry to many of our degrees.

For students that have studied at either TAFE SA or other Registered Training Organisations (RTOs), most Certificate IV courses (including former Advanced Certificates or equivalent) meet the minimum entry requirements for a wide range of our undergraduate degrees. For some degrees, a successfully completed Diploma or Advanced Diploma will be required to meet the minimum entry requirements.

Preparatory programs at Adelaide University

Fee-free tuition (student amenities fee required)

Adelaide University is committed to welcoming students from all backgrounds and life stages, with preparatory programs designed to help you succeed and gain entry into your preferred degree.

The Foundation Studies and Aboriginal and Torres Strait Islander Pathway programs provide fee-free pathways to university, regardless of your educational experience. If you do not meet the required qualifications for direct entry into a bachelor degree, these programs provide alternative entry options while helping you adjust to the university environment.

Our preparatory programs set you up to succeed at university by building

academic skills and prerequisite knowledge. You'll benefit from small classes, academic support services and full access to campus facilities. Learn core academic skills and experience student life as an Adelaide University student.

Once you've successfully completed your program, you'll be able to transfer into one of Adelaide University's world-class undergraduate degrees.

Foundation Studies

Foundation Studies is a fee-free program with no tuition fees, designed to help you build essential skills for successful university study. A student services amenities fee applies to all university students which can be deferred through the Federal Government HECS-HELP loan scheme. This program supports students with no previous qualifications to learn the skills required for successful university-level study.

This program is ideal for students with no prior qualifications or formal education experience, including those who may not have an ATAR, are from regional and remote areas, are first in their family to attend university or who may have spent extended periods of time away from formal education.

The Foundation Studies program is split into three blocks, with a series of entry, exit and transition points that cater to diverse educational backgrounds and your chosen destination degree.

adelaide.edu.au/study/degrees/foundation-studies

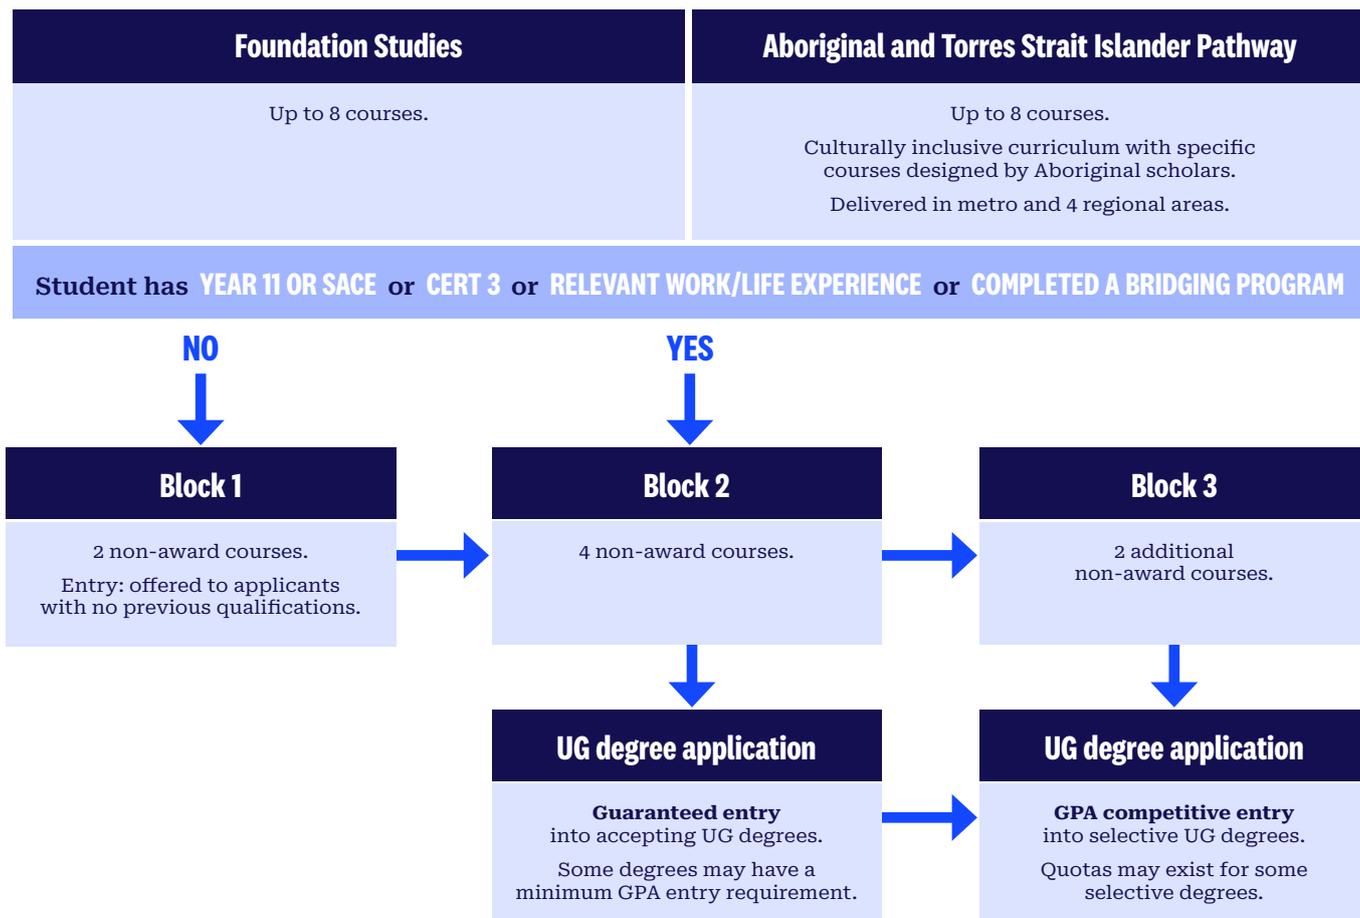

Aboriginal and Torres Strait Islander Pathway

Adelaide University is dedicated to being a university of choice for Aboriginal and Torres Strait Islander Peoples.

Our Aboriginal and Torres Strait Islander Pathway is a fee-free program with no tuition fees. A student services amenities fee applies to all university students which can be deferred through the Federal Government HECS-HELP loan scheme.

This program is offered also in regional areas and provides culturally aware entry options and tailored study support. Like Foundation Studies, the Aboriginal and Torres Strait Islander Pathway is split into three blocks, with a series of entry, exit and transition points that cater to diverse educational backgrounds and your chosen destination degrees.

adelaide.edu.au/study/degrees/aboriginal-and-torres-strait-islander-pathway

Block 1

Preparatory courses

Block 1 courses develop essential academic skills like communication, critical writing and research. You'll receive support in writing academic assignments, referencing and effective time management. These skills and experiences will help you confidently navigate future university study and develop a comprehensive understanding of the university learning environment.

On completing Block 1 you'll be able to communicate effectively in written and oral formats, engage confidently with numeracy, undertake academic research and have developed a tool kit to approach and organise your study.

Block 2

Pathway to guaranteed entry degrees

Students who have completed year 11, SACE or a Certificate 3 can enter the Foundation Studies program or Aboriginal and Torres Strait Islander Pathway directly at Block 2.

Block 2 extends your engagement with the higher education learning environment and provides foundational knowledge and skill development for your intended destination degree. The courses are designed to develop critical thinking and foster an understanding of university and career pathways while developing foundational knowledge and skills in your chosen discipline.

On completing Block 2 you'll be guaranteed access to a range of accepting degrees, noting that some undergraduate degrees may require a minimum GPA to qualify.

Block 3

Pathway to selective entry degrees

Block 3 is designed to provide a pathway for students wanting to enter selected Adelaide University undergraduate degrees. The courses in this block build on foundational discipline concepts established in Block 2, and will extend your knowledge to help you meet the entry criteria for your chosen degree.

Completing Block 3 qualifies you to apply to selective undergraduate degrees based on your GPA. Some of these degrees have limited professional placement spaces, making entry competitive.

Steps to success

STEP 1 >>>

Explore your study options

Researching your study options is an important first step, and there are many different tools and resources available to help you. You could start by reading through this brochure or head online to explore our website: adelaide.edu.au/study

Attending our Open Day is another great way to get a feel for what university life is like and to learn about the range of services available to support you during your university studies. If you need personalised advice, book a time to chat with a future student adviser – they're here to help with any specific questions you may have.

STEP 2 >>>

Check you meet the eligibility and entry requirements

All degrees have specific entry requirements that you have to meet in order to be eligible for entry into a degree. Each degree will have different entry criteria, so it's important to find out what these are and make sure you can meet them.

Entry requirements can include things like:

- Prerequisites you will need to complete either during your high school (SACE/IB) studies, bridging courses or approved alternatives.
- Assumed knowledge topics that, while not essential for admission into a degree, will help prepare you for many of the topics you'll study during your degree.
- Non-standard entry requirements, such as: attending an interview, undertaking additional assessments (e.g. the UCAT ANZ), performing an audition, submitting a written statement or creative portfolio.

SATAC

satac.edu.au

STEP 7 <<<

Welcome to Adelaide University

After receiving your offer, you'll receive enrolment instructions and your new university ID number. You can then start to plan your timetable, enrol into your courses, attend orientation activities, and begin your university journey.

STEP 3**Apply via SATAC**

Applications open in early August for study commencing in the following year. You can apply for your chosen degrees through the SATAC website.

Before you apply, it's a good idea to familiarise yourself with the application process. Note important deadlines and key dates, any supporting documentation as well as SATAC fees and charges and when to pay. For more information, visit the SATAC website: satac.edu.au

STEP 4**Keep your preferences up to date**

As part of your SATAC application, you'll be asked to list up to six preferences—these are the six degrees you are most interested in studying. SATAC makes offers by working down your preference list, so it's important to make sure your first preference is the degree you want to study most.

If you change your mind after you've submitted your application, don't worry! You can change your preferences as often as needed up to the cut-off date for your specific offer round. For a list of key dates, visit SATAC's website.

Helpful tip: Be sure to include some 'back up' options on your application. If you need support in choosing the best back up options or pathways into your dream degree, get in touch with our friendly future student advisers.

STEP 6**Receive your offer**

An offer email will be sent to the email address you provided on your SATAC application. If you have received an offer you don't need to respond, as SATAC will accept the offer on your behalf. If you would like to defer your offer until the following year, you will need to log in to your application through the SATAC website and change the response to the 'defer' option.

If the offer you received was for a degree that is not your first preference, SATAC will accept the offer but note that you would still like to be considered for an offer to your higher preference(s).

STEP 5**Check your offer**

SATAC run several smaller offer rounds, one main offer round, then continue to make offers in the lead up to the start of the study period you applied for. SATAC will email your offer to the highest preference for which you are eligible. This means the degree you most want to study should be your first preference. Remember to check all email folders—including your spam folder—for your offer. You can also check your offer by logging back in to your application through the SATAC website.

Helpful tip: Didn't receive an offer for your first preference? Don't stress—you could still be considered for future offer rounds!

In sickness and in health

From preventing disease to promoting wellbeing, healthcare workers are critical to our quality of life. Our degrees are designed in line with industry best practice and incorporate the latest technologies, developments and practices in healthcare. Supported by our industry experienced teaching staff, you'll learn how the human body works in sickness and in health. You'll explore the causes, diagnostics and treatments of a range of conditions and build an understanding of how to optimise patient outcomes.

Immersive learning

Embedded work-integrated learning experiences will provide you with valuable hands-on experience while on campus simulation and laboratory learning opportunities will build your confidence in a supportive environment. You'll go beyond the classroom with placement opportunities that will ensure you'll graduate ready to make a difference.

Campus	Adelaide City	Prerequisites	None

Why this degree

Clinical exercise physiologists understand how movement – at the right time and intensity – can be its own kind of medicine. Experts on the human body, they design personalised programs to help people with varying health issues and treatment goals achieve an improved quality of life. As patient-centred approaches to care continue to become the norm, clinical exercise physiologists are a central part of a person's healthcare team. Working alongside doctors, medical specialists, dietitians and more to improve outcomes for their patients. Step into a life-changing career where every day is different.

Career outcomes

As recognised allied health professionals, accredited exercise physiologists are qualified in clinical exercise prescription and the delivery of exercise-based lifestyle and behaviour modification programs to prevent and treat injury and disease. As a clinical exercise physiologist, you could work individually, under supervision of a physician, or as part of an interdisciplinary team in clinical, community, or public health settings.

You might be based in a private physical therapy clinic, guiding clients with injuries through physical exercises to aid their recovery. Maybe you'll work as part of an interprofessional team in a community-based heart health clinic, helping patients integrate consistent exercise as part of their management plan. Perhaps you'll find yourself working in an in-patient rehabilitation ward, developing personalised exercise programs for a wide range of clients hoping to regain mobility and the ability to live independently.

Accreditation

This program is accredited by Exercise and Sports Science Australia (ESSA). Graduates are eligible for registration with ESSA as an Accredited Exercise Physiologist and an Accredited Exercise Scientist.

You might also like:

- Bachelor of Exercise and Sport Science
- Bachelor of Physiotherapy (Honours)
- Bachelor of Occupational Therapy (Honours).

World-class research

Your learning will be informed and supported by world-class research. Adelaide University is home to a number of research centres and institutes that are leading the way in health and medical research, including six National Health and Medical Research Council Centres of Research Excellence. Our internationally renowned and award-winning researchers are at the forefront of a healthier future.

Career prospects

With a predicted global shortage of 10 million health workers by 2030*, there's never been a more critical time to join the healthcare industry. You will be well equipped with the skills and expertise to meet the demand with a degree from Adelaide University.

**2023 WHO Global Monitoring Report*

Bachelor of Exercise and Sport Science

SATAC code	ABP118	IB score	30.25
Start date	Feb, July	Guaranteed entry	80 (A,A,A)
Duration	3 years full-time	Assumed knowledge	None
Campus	Adelaide City	Prerequisites	None

Why this degree

Leverage your knowledge of physical activity, health and sports performance. Want to train elite athletes for the Olympics? Aspire to coach a national team? Maybe you want to lead as a fitness trainer or specialise in rehabilitation? Inspire people to be healthier, more active and perform at their best with a Bachelor of Exercise and Sport Science. Become a leader in the exciting field of sports science. Discover the long-term positive effects of exercise on people's physical and mental health. Gain knowledge and skills to increase athletic performance and wellbeing. Enhance your networks and relationships with industry to work in a range of positions from sport to aged care.

Career outcomes

Want to use your passion for exercise to transform lives and lead the future of fitness? You could work as a strength and conditioning coach preparing athletes for peak performance. You might work as a health and wellness advisor in the community, promoting exercise, healthy living and nutrition plans. Perhaps you'll become a performance analyst, providing insights for individuals and teams to enhance performance.

Employment opportunities are diverse, and careers could include:

- Physical training specialist
- Strength and conditioning coach
- Performance analyst
- Community sports project officer
- Sports coach
- Rehabilitation specialist
- Exercise and sports science researcher.

Accreditation

This program is accredited by Exercise and Sports Science Australia (ESSA). Graduates are eligible for registration with ESSA as an Accredited Exercise Physiologist and an Accredited Exercise Scientist.

You might also like:

- Bachelor of Clinical Exercise Physiology (Honours)
- Bachelor of Human Movement majoring in Sport Coaching
- Bachelor of Podiatry (Honours).

Bachelor of Human Movement majoring in Human Nutrition

SATAC code	ABP156	IB score	26.25
Start date	Feb, July	Guaranteed entry	70 (B,B,B)
Duration	3 years full-time	Assumed knowledge	None
Campus	Adelaide City	Prerequisites	None

Why this degree

Help clients master the building blocks of health. What we eat and how often we move both wield enormous influence over the quality of our overall health and wellbeing. In Australia, one-third of the total disease burden is caused by modifiable health behaviours – in other words, diet and exercise (AIHW, 2021).

Human movement professionals draw knowledge from human anatomy, physiology, biomechanics, biology and more to understand the role of movement and its influence on enhancing health and wellbeing. They work with clients of all ages and abilities, developing tailored programs to help clients achieve improvements in their fitness and wellbeing.

Be a source of knowledge and inspiration for others and support people to lead healthier lives.

Career outcomes

This degree builds both practical and scientific skills, giving you valuable versatility in the job market. You'll gain capabilities in movement analysis, exercise prescription and nutritional planning – opening doors in both health and fitness sectors.

You could lead corporate wellness programs, working to improve employee wellbeing. You might coordinate health and wellbeing events for a city council or a university. Perhaps you'll start your own nutrition or fitness business.

You could also be a:

- Health promotion officer
- Human movement practitioner
- Sports and fitness nutritionist
- Community nutritionist
- Nutrition and food policy advisor
- Community and allied health worker
- Health and wellbeing nutrition advisor
- Sport development officer
- Youth sports coordinator.

Or, go on to complete a master's in human movement and nutrition to expand your career opportunities and potential impact in the field.

You might also like:

- Bachelor of Health Science (Nutrition and Exercise)
- Bachelor of Human Movement majoring in Sport Coaching
- Bachelor of Outdoor and Environmental Leadership.

Bachelor of Human Movement majoring in Secondary Health and Physical Education

SATAC code	ABP156	IB score	26.25
Start date	Feb, July	Guaranteed entry	70 (B,B,B)
Duration	3 years full-time	Assumed knowledge	None
Campus	Adelaide City	Prerequisites	None

Why this degree

Movement is crucial for humans. It's not just good for our physical health; it boosts our mood and helps us manage stress better. Competitive sports can be lifechanging for people of all ages – but especially young people in our community.

For those with an interest in health and a passion for helping others, there are important roles you can pursue nurturing individual and public wellbeing. You'll be equipped to work with people in clubs, camps and community centres. Your expertise will be valued – and needed.

Support individuals to grow and succeed. Instil healthy habits early in young people's lives. Help them access skills, community and personal growth through sport and movement.

Career outcomes

You'll graduate with specialised knowledge and practical skills in human health and physical education, ready for a range of fun and impactful roles supporting community health. You could be an outdoor education instructor, leading adventure tours for schools, corporate teams or clubs. You might be a coach in a community sports program. Perhaps you'll work for a local youth organisation like Youth Inc., SASY, Whitelion or Youth Opportunities, helping young people reach their goals and undertake action-learning in the real world.

You will have a strong foundation – and a competitive edge – for the Master of Teaching at Adelaide University.

You could also be a:

- Youth sports coordinator
- Health promotion officer
- Human movement practitioner
- Community and allied health worker
- Wellness coach
- Corporate program coordinator
- Sport development officer
- Recreational program manager
- Adventure therapy facilitator.

You might also like:

- Bachelor of Health Science
- Bachelor of Human Movement majoring in Sport Coaching
- Bachelor of Teaching (Secondary) (Honours).

Bachelor of Human Movement majoring in Sport Coaching

SATAC code	ABP156	IB score	26.25
Start date	Feb, July	Guaranteed entry	70 (B,B,B)
Duration	3 years full-time	Assumed knowledge	None
Campus	Adelaide City	Prerequisites	None

Why this degree

Discover the power of movement and inspire others to lead healthier, more active lives. Apply different exercise techniques to improve the overall fitness and mental health of athletes and sporting teams. Design training programs tailored to the needs and goals of individuals or teams, focusing on technique, strategy and physical conditioning.

With hands-on experience and world-class educators, you'll be ready for a career as a health and physical activity teacher, human movement practitioner or sports coach.

Whether you're planning activities for communities, schools or individuals, you'll gain the knowledge needed to make a lasting impact. Shape your future and inspire others.

Career outcomes

You might work as a sports coach, developing an athlete's physical and mental strength. You could become a performance analyst, using data and technology to finetune performance for elite teams. Perhaps you'll work as a physical activity coordinator, designing and delivering fitness programs to improve community health.

Whether coaching a school team, supporting professional athletes or shaping health policy, this degree leads to diverse careers that make a lasting impact on individuals and communities.

You might also like:

- Bachelor of Biomedical and Health Sciences majoring in Public Health
- Bachelor of Exercise and Sport Science
- Bachelor of Human Movement majoring in Secondary Health and Physical Education.

Bachelor of Medical Radiation Science (Honours) majoring in Medical Imaging

SATAC code	ABP167	IB score	NA
Start date	Feb	Guaranteed entry	NA
Duration	4 years full-time	Assumed knowledge	None
Campus	Adelaide City	Prerequisites	None

Why this degree

Want to enter the dynamic world of medical imaging? Become an essential part of advancing healthcare. Deliver life-changing outcomes, blending your expertise in technology and your natural compassion.

As a diagnostic radiographer, you'll master the use of x-rays, fluoroscopy, and emergency imaging. Monitor and diagnose injuries and illnesses. Develop key communication and teamwork skills. Work alongside healthcare professionals to provide exceptional patient care.

Your skills will be vital in delivering accurate diagnoses and supporting patient recovery.

Career outcomes

There is strong demand for medical imaging professionals in Australia and globally. You may work in a hospital, private clinic, or medical equipment company. You might pursue a research role and contribute to advancements in diagnostic techniques. Or you could specialise further with additional training and move into areas like MRI, CT, or sonography.

As a medical imaging professional, you'll work closely with both patients and technology. Play a vital role in patient care and help diagnose and monitor a wide range of health conditions.

With further study or training, you can advance into specialised roles such as:

- Interventional radiographer
- MRI technologist
- CT radiographer
- Sonographer.

A successful career in medical imaging requires a passion for helping others, a love of technology, and an interest in the human body.

Accreditation

This program is accredited by the Medical Radiation Practice Accreditation Committee and approved by the Medical Radiation Practice Board of Australia. Graduates are eligible to apply for registration with the Medical Radiation Practice Board of Australia.

You might also like:

- Bachelor of Biomedical and Health Sciences
- Bachelor of Health Science
- Bachelor of Science.

Bachelor of Medical Radiation Science (Honours) majoring in Nuclear Medicine

SATAC code	ABP168	IB score	NA
Start date	Feb	Guaranteed entry	NA
Duration	4 years full-time	Assumed knowledge	None
Campus	Adelaide City	Prerequisites	None

Why this degree

Dreaming of a career where you can use cutting-edge technology to diagnose and treat life-threatening diseases? Be a key player in a healthcare team. Prepare and administer radioactive substances (radiopharmaceuticals). Master state-of-the-art equipment.

Turn your passion for science and patient care into a powerful career. Learn to evaluate organ function and contribute to life-changing medical treatments.

Make a difference in patients' lives and help shape the future of healthcare, ensuring earlier diagnoses and more effective treatments. By joining this dynamic field, you'll not only impact individual patients but also help advance the future of medicine.

Career outcomes

Ready to make a difference in the world of nuclear medicine? With your degree, you can step into a high-demand field where your skills are sought-after both locally and internationally.

Using advanced imaging technologies like PET scans you can diagnose and treat diseases. You can find work in hospitals, private clinics, or medical equipment companies.

With further study or training, you can advance into specialised roles such as:

- MRI technologist
- CT technologist
- Sonographer.

A successful career in nuclear medicine requires a passion for helping others, a love of technology and an interest in the human body.

Accreditation

This program is accredited by the Medical Radiation Practice Accreditation Committee and approved by the Medical Radiation Practice Board of Australia. Graduates are eligible to apply for registration with the Medical Radiation Practice Board of Australia.

You might also like:

- Bachelor of Biomedical and Health Sciences majoring in Microbiology and Immunology
- Bachelor of Laboratory Medicine (Honours)
- Bachelor of Science majoring in Genetics.

Bachelor of Medical Radiation Science (Honours) majoring in Radiation Therapy

SATAC code	ABP169	IB score	NA
Start date	Feb	Guaranteed entry	NA
Duration	4 years full-time	Assumed knowledge	None
Campus	Adelaide City	Prerequisites	None

Why this degree

Join the frontline of cancer treatment, using cutting-edge technology to save lives and offer hope.

As global cancer rates rise, radiation therapists are in high demand worldwide. Master advanced imaging techniques, treatment planning, and patient care. Develop critical thinking and problem-solving skills. Learn to operate state-of-the-art equipment like linear accelerators and CT scanners.

Radiation therapy is a field where compassion meets innovation, allowing you to make a profound impact on patient lives.

With the global need for cancer care growing, your expertise will be valued across cultures, connecting you to a worldwide community of healers.

Career outcomes

With a degree in radiation therapy, you'll enter a high-demand field, both in Australia and internationally.

Work with advanced technology to deliver life-saving treatments, primarily for cancer patients. You might collaborate with radiation oncologists and medical physicists to plan and deliver precise radiation therapies. Perhaps you'll pursue a research-focused role and conduct clinical trials on new radiation therapy techniques. Or you could move into an educational role and train new radiation therapy students or provide continuing education for practicing therapists.

With further study or training, you can advance into specialised roles such as:

- Paediatric radiation therapist
- MRI technologist
- Brachytherapy specialist
- Sonographer
- Radiation oncology researcher.

Work with the latest technology, be an essential part of a dynamic team, and make a meaningful impact on patient lives.

Accreditation

This program is accredited by the Medical Radiation Practice Accreditation Committee and approved by the Medical Radiation Practice Board of Australia. Graduates are eligible to apply for registration with the Medical Radiation Practice Board of Australia.

You might also like:

- Bachelor of Biomedical and Health Sciences
- Bachelor of Medical Radiation Science (Honours) majoring in Nuclear Medicine
- Bachelor of Science majoring in Nuclear and Radiation Physics.

Bachelor of Occupational Therapy (Honours)

SATAC code	ABP125 – Adelaide City ABP189 - Whyalla	IB score	NA
Start date	Feb	Guaranteed entry	NA
Duration	4 years full-time	Assumed knowledge	None
Campus	Adelaide City or Whyalla	Prerequisites	None

Why this degree

Occupational therapists empower people and communities to develop and maintain the capabilities needed to participate in the daily activities that make a meaningful life. They use therapeutic techniques to help people regain, improve and sustain their everyday functional abilities.

If you love working with people and are a strong, empathetic individual, this is the career for you. Help people reach their goals. Integrate knowledge from different fields, including psychology, anatomy and sociology. Embark on a personally fulfilling career, making a real difference for your clients' quality of life.

Our Bachelor of Occupational Therapy (Honours) will give you a competitive edge to stand out in the workforce.

Career outcomes

Be ready to make a difference in people's lives as an occupational therapist. You could work with people recovering from injury, surgery or illness, such as a stroke or a traumatic event. You might work with children to overcome developmental delays, allowing them to participate in their most important activities. You could work with communities addressing injustice and advocating for better policies that promote health and human rights. Maybe you'll work in research or academia, identifying the latest developments in occupational therapy.

You could find employment in a range of settings, including:

- Aged care facilities
- Ambulatory and rehabilitation services
- Community mental health services
- Government departments
- Home based services
- Public and private hospitals
- Private practice
- Schools.

As an occupational therapist, some of your daily tasks may include:

- Assessing the daily living needs of people
- Designing and implementing interventions to assist with daily living activities
- Supporting educational participation
- Encouraging leisure and play
- Enabling social participation
- Facilitating work (paid and voluntary).

Accreditation

This program is accredited by the Occupational Therapy Council of Australia (OTC). Graduates are eligible to apply for registration as an occupational therapist with the Occupational Therapy Board of Australia (OTBA). The program is also approved by the World Federation of Occupational Therapists (WFOT).

You might also like:

- Bachelor of Clinical Exercise Physiology (Honours)
- Bachelor of Exercise and Sport Science
- Bachelor of Human Movement majoring in Sport Coaching.

Bachelor of Outdoor and Environmental Leadership

SATAC code	ABP127	IB score	26.25
Start date	Feb, July	Guaranteed entry	70 (B,B,B)
Duration	3 years full-time	Assumed knowledge	None
Campus	Adelaide City	Prerequisites	None

Why this degree

Turn your love for nature and the outdoors into a rewarding career. Provide transformational outdoor experiences, promote healthy interpersonal relationships with others and nature. Inspire others to learn about our world and sustainable living. Become a conservation champion, lead eco-tourism initiatives or create programs that engage and protect our environment.

Explore exciting topics like biodiversity and adventure-based learning and outdoor leadership. Gain the knowledge and skills to build a greener, more connected community.

This unique degree combines environmental science and outdoor leadership. You'll be ready to pursue exciting roles in nature tourism, outdoor and environmental education, adventure therapy, or outdoor leadership.

Career outcomes

The Bachelor of Outdoor Environmental Leadership at Adelaide University will give you a competitive edge as it's tailored to meet growing industry demand for outdoor adventure guides, educational practitioners and environmental leaders.

You could work as an outdoor environmental educator, facilitating nature-based learning experiences for young people. Perhaps you'll be an ecotourism guide, tracking animals in their natural habitat, surveying invasive marine animals, or restoring habitat. Or you might work as an outdoor adventure instructor in the great outdoors.

You may go on to further study in areas such as education, therapy, management or cultural work. You could also be a:

- Youth worker specialising in outdoor programs
- Environmental interpretation officer
- Community development officer
- Conservation officer
- Sustainability consultant
- Park ranger
- Field researcher
- Environmental consultant
- Adventure therapist.

You might also like:

- Bachelor of Science
- Bachelor of Human Movement
- Bachelor of Teaching.

Bachelor of Pharmaceutical Science

SATAC code	ABP128	IB score	30.25
Start date	Feb, July	Guaranteed entry	80 (A,A,B)
Duration	3 years full-time	Assumed knowledge	None
Campus	Adelaide City		
Prerequisites	SACE Stage 2 Biology, Chemistry or Physics (or equivalent).		

Why this degree

Curious how medications are developed, tested and brought to market? Study the only degree of its kind in South Australia and unlock your potential in pharmaceutical science.

Discover the intersection between chemistry, biology and biotechnology and improve the quality of life for millions of people worldwide. Work with cutting-edge research to save lives and revolutionise healthcare. Be at the forefront of medical innovation and begin your career discovering and formulating critical medicines. Develop important skills through hands-on learning, preparing you to explore a range of work environments. With the world in need of essential medicines, are you ready to make a difference?

Career outcomes

Our degree, and your passion for science, technology and solving problems, will set you on the path to improving human health. You might perform clinical trials to test the efficiency of medicines in patients. You could research and develop new drugs and medicines. Perhaps you'll focus on the marketing and sales of medicines for human and veterinary use.

Your employment opportunities will be diverse, including:

- Product developer/formulation scientist
- Medicinal chemist
- Quality assurance
- Biomedical researcher
- Pharmaceutical sales
- Medicine regulation
- Clinical trials research associate.

You might also like:

- Bachelor of Biomedical and Health Sciences majoring in Clinical Trials
- Bachelor of Science majoring in Microbiology and Immunology
- Bachelor of Pharmacy (Honours).

Bachelor of Pharmacy (Honours)

SATAC code	ABP191	IB score	35.25
Start date	Feb, July	Guaranteed entry	90 (A,A,A)
Duration	4 years full-time	Assumed knowledge	None
Campus	Adelaide City		
Prerequisites	SACE Stage 2 Biology, Chemistry or Physics (or equivalent).		

Why this degree

Explore the fascinating ways that medicines work – and how they interact with the human body. Be equipped with the knowledge and skills to help people get the best outcomes from their medicines.

Pharmacists are an important member of any healthcare team. They provide expert patient care and ensure medicines enhance health outcomes with minimal side effects. Step into one of the world's most trusted professions. Compound medicines, analyse drug interactions and create your own formulations. You'll be the go-to expert on medications and a key player in improving public health.

Make a difference in people's lives with a Bachelor of Pharmacy (Honours) – one prescription at a time.

Career outcomes

Pharmacists are medicine experts in healthcare teams, with expanding clinical roles and new therapeutic developments offering more career options than ever.

Growth in Australia's pharmacy profession continues to look strong, with increasing roles in aged care, primary care, healthcare policy and the pharmaceutical industry.

You can work in settings across:

- Hospitals
- Local pharmacies
- GP practices
- Aged care settings
- Defence services
- Infectious disease services
- Compounding or critical care services.

You might help develop the next life-changing medication, improving treatment options for people across the world. You could specialise in paediatric care, designing medicines that are safer and easier for children to take. Or you might work in hospitals, community pharmacies, or aged care making a difference every day by helping patients use their medicines safely and effectively.

Accreditation

This program is accredited by the Australian Pharmacy Council.

You might also like:

- Bachelor of Biomedical and Health Sciences majoring in Biochemistry
- Bachelor of Laboratory Medicine (Honours)
- Bachelor of Pharmaceutical Science.

Bachelor of Physiotherapy (Honours)

SATAC code	ABP193 – Adelaide City, ABP194 - Whyalla		
Start date	Feb	IB score	NA
Duration	4 years full-time	Guaranteed entry	NA
Campus	Adelaide City or Whyalla	Prerequisites	None
Assumed knowledge	SACE Stage 2 Biology and Physics (or equivalent).		

Why this degree

Movement is medicine for the body and mind. But every person is different, with their own unique challenges and vulnerabilities. Skilled physiotherapists understand this – and can offer life-changing, personalised support.

Our Bachelor of Physiotherapy (Honours) gives you the knowledge and tools to excel in this rewarding field, with patient-centred care at the heart of your practice.

Discover how the human body works. Get extensive hands-on experience. Connect with industry experts. Stay on your toes in an active, people-focused profession. Help your clients reach their full potential and lead healthy, functional lives.

Career outcomes

Physiotherapists can work across management, administration, education, research, policy development, advisory and regulatory contexts.

You might work on a cruise ship, keeping travellers safe and limber at sea. You could provide on-site physiotherapy services for office workers. Perhaps you'll be head physio for the Australian Olympic Team.

Or you could pursue a career as a:

- Rehabilitation specialist
- Disability analyst
- Paediatric physio
- Cardiac rehabilitation specialist
- Continence and women's health physio
- Health service manager
- Aquatic physio.

Accreditation

The program is accredited by the Australian Physiotherapy Council and satisfies the academic requirements for registration as a physiotherapist with the Physiotherapy Board of Australia. Successful completion of the program is accepted for membership of the Australian Physiotherapy Association.

You might also like:

- Bachelor of Exercise and Sport Science
- Bachelor of Occupational Therapy (Honours)
- Bachelor of Podiatry (Honours).

Bachelor of Podiatry (Honours)

SATAC code	ABP195	IB score	35.25
Start date	Feb	Guaranteed entry	90 (A,A,A)
Duration	4 years full-time	Prerequisites	None
Campus	Adelaide City		
Assumed knowledge	SACE Stage 2 Biology (or equivalent).		

Why this degree

Kickstart your allied health career. For many of us, our feet are just tools that help us get around. When working as expected, we hardly think about them. But did you know that our feet can be the first to show signs of health problems?

Podiatrists are not only experts in foot, ankle and lower limb health but can assess and manage a broad range of lower limb conditions, including symptoms associated with diabetes, arthritis, gait issues, skin and toenail concerns, and identify circulatory neurological issues that impact our feet and lower leg function.

Step confidently into a career, where every day brings opportunities to change lives for the better.

Career outcomes

With patient-centred care at the heart of your practice, you'll graduate prepared to meet the full breadth of the podiatry profession including surgery, sports injuries and related biomechanics, paediatrics and high-risk foot conditions. Career paths are endless, and you can truly design your career to align with your professional and personal goals. Podiatrists can opt to work as an individual care provider in private practice or as part of an interdisciplinary healthcare team based in a clinical or community healthcare setting.

You might be based in a private podiatry clinic, helping clients with a variety of chronic conditions maintain good foot care practice. Maybe you'll work as part of an interprofessional team in a hospital, helping assess, diagnose and treat complex and high-care patients. Perhaps you'll find yourself focused on in paediatric podiatry, developing treatment plans and creating specialised orthotics to meet the varying needs of this unique patient population.

Accreditation

This program is accredited by the Podiatry Accreditation Committee. Graduates are eligible to apply for registration with the Podiatry Board of Australia (PodBA).

You might also like:

- Bachelor of Nursing
- Bachelor of Occupational Therapy (Honours)
- Bachelor of Physiotherapy (Honours).

Bachelor of Speech Pathology (Honours)

SATAC code	ABP131	IB score	NA	
Start date	Feb	Guaranteed entry	NA	
Duration	4 years full-time	Assumed knowledge	None	
Campus	Adelaide City		Prerequisites	None

Why this degree

Support and empower people of all ages to connect with others and participate in life. As humans, we are innately social, our lives revolve around connecting with others through communication in work, play, and eating and drinking. So, what happens when we find it difficult to communicate? Or an illness makes it hard for us to eat and drink safely?

Conditions that cause difficulties with communication or eating and drinking can affect anyone, at any stage of the lifespan. Speech pathologists diagnose and treat these difficulties, determining the most appropriate intervention to help people achieve their goals.

Learn how to transform lives through the power of communication and grow in a career where you'll make a difference every day.

Career outcomes

Talented speech pathologists are already highly sought-after, and demand is growing fast. As a certified speech pathologist, you'll have the freedom to pursue a wide range of career opportunities in diverse settings – including private practice, community health services, educational settings, hospitals, rehabilitation services, aged care settings, corrections and more.

You could help children with disabilities or developmental delays connect with their peers by improving communication skills and opportunities for social interaction. Perhaps you'll help a person who has had a stroke to improve their ability to eat and communicate or support a patient in end-of-life care. Maybe you'll enable adults with acquired or traumatic brain injuries to communicate with others. You could even work as part of a therapeutic team striving towards a person's goal of gaining employment.

Accreditation

This program is accredited by Speech Pathology Australia. Graduates are eligible for Certified Practising Speech Pathologist (CPSP) status.

Bachelor of Public Health

100% online

Diploma in Health

Bachelor of Community Health

Bachelor of Health Science

Bachelor of Health Science (Nutrition and Exercise)

Bachelor of Health Service Management

Bachelor of Public Health

Master of Science in Addiction Studies

Postgraduate

Graduate Diploma in Addiction and Mental Health

Master of Biostatistics

Master of Public Health

Exploring human health

Health and biomedical sciences bring together medical science, nutrition and public health to understand human health, disease and wellbeing. You'll study across a range of disciplines, from neuroscience to nutrition, developing a strong foundation in scientific inquiry and health innovation.

Learning through practice

Work-integrated learning is built into programs through placements, research projects and on campus hands-on laboratory training. You'll gain valuable experience in clinical, community and research settings, preparing yourself to apply knowledge in dynamic real-world health environments.

World-class research

Explore cutting-edge research across fields such as pharmacology, physiology, and genetic science. Students study alongside internationally recognised researchers, contributing to breakthroughs that shape the future of health and medicine.

Career prospects

Graduates pursue exciting roles in healthcare, research, biotechnology, and government sectors, or continue into postgraduate health degrees. With a strong scientific foundation and real-world experience, you're well prepared to improve health outcomes and advance medical discovery.

Fast-track your future in science and research

Did you know you can apply for a streamlined study path that combines the Bachelor of Biomedical and Health Sciences and Master of Research? If you're a high-achieving student with an ATAR of 95 or above you can upgrade to a master's with just 1 year of additional, tuition free study – finishing with an advanced qualification that sets you apart in both industry and academia.

Bachelor of Biomedical and Health Sciences

SATAC code	ABP136	IB score	30.25
Start date	Feb, July	Guaranteed entry	80 (A,A,B)
Duration	3 years full-time	Assumed knowledge	None
Campus	Adelaide City	Prerequisites	None

Why this degree

Interested in learning how the human body works in both health and disease? Study a degree that combines applied health with biomedical sciences and get your career off to a healthy start. Be at the forefront of scientific discovery by studying a degree that is future focused and industry engaged. Develop in-demand skills that will help you play a part in addressing expected health workforce shortages.

Career outcomes

Your options after graduation will be endless. You could find yourself developing vaccines, performing diagnostic testing, or conducting laboratory research that solves health challenges.

Career outcomes are diverse and include:

- Clinical trial assistant
- Cardiac physiologist, neurophysiologist or embryologist
- Public health advisor, environmental health officer or health informatics coordinator
- Laboratory research assistant
- Clinical operations manager
- Sales and marketing related to healthcare and diagnostic products.

You might also like:

- Bachelor of Health Science
- Bachelor of Public Health
- Bachelor of Science majoring in Biotechnology.

Fast-track your future in science and research

Did you know you can apply for a streamlined study path that combines the Bachelor of Biomedical and Health Sciences and Master of Research?

Bachelor of Biomedical and Health Sciences, Master of Research

SATAC code	ABP253	IB score	38.75
Start date	Feb, July	Guaranteed entry	95 (A,A,A)
Duration	4 - 4.25 years full-time (or part-time equivalent)	Assumed knowledge	None
Campus	Adelaide City		
Prerequisites	None		

If you're a high-achieving student with an ATAR of 95 or above you can upgrade to a master's with just 1 year of additional, tuition free study – finishing with an advanced qualification that sets you apart in both industry and academia.

- Designed for high-achieving students (ATAR 95+).
- Upgrade to a master's with just 1 year of additional study.
- Pay no tuition fees for the master's component.

Bachelor of Biomedical and Health Sciences majors

Bachelor of Biomedical and Health Sciences majoring in Biochemistry

SATAC code	ABP136	IB score	30.25
Start date	Feb, July	Guaranteed entry	80 (A,A,B)
Duration	3 years full-time	Assumed knowledge	None
Campus	Adelaide City	Prerequisites	None

The Bachelor of Biomedical and Health Sciences majoring in Biochemistry will help you drive health outcomes at the molecular level and create life-changing outcomes. Benefit from a curriculum that combines biomedical sciences and applied health – so you can explore the human body across both health and disease. Learn from experts in biochemistry and benefit from the latest research and developments in the field. You'll also complete professional placements designed to enhance your clinical skills and provide workplace experience. Graduate with the knowledge you need to be at the forefront of discovery in health.

Bachelor of Biomedical and Health Sciences majoring in Clinical Trials

SATAC code	ABP136	IB score	30.25
Start date	Feb, July	Guaranteed entry	80 (A,A,B)
Duration	3 years full-time	Assumed knowledge	None
Campus	Adelaide City	Prerequisites	None

New drugs and treatments are bringing hope to patients with previously untreatable or poorly managed conditions. Clinical trials pave the way for these innovations, deepening our understanding of diseases and helping us develop safe, effective treatments. With a Bachelor of Biomedical and Health Sciences majoring in Clinical Trials, you can be part of this promising new frontier. Develop a solid foundation in human health with a special focus in drug development and testing. Explore the science behind how and why drugs work on the human body. Gain hands-on experience in an industry or research placement and get ready to make a real impact in health and care.

Bachelor of Biomedical and Health Sciences majoring in Genetics

SATAC code	ABP136	IB score	30.25
Start date	Feb, July	Guaranteed entry	80 (A,A,B)
Duration	3 years full-time	Assumed knowledge	None
Campus	Adelaide City	Prerequisites	None

Genes are what makes you unique. They are the segments of DNA that create the unique blueprint for who you are. With a Bachelor of Biomedical and Health Sciences majoring in Genetics, you'll unravel the secrets of DNA – the language of life itself. Discover the science that underpins the structure, function, transmission and evolution of genes. Explore the far-reaching impact of genetics across multiple sectors and industries, while considering its ethical implications. Gain practical experience with up to 150 hours of work placements in industry or research settings. Graduate with sought-after skills in health and research and be ready for a rewarding career in health and biomedicine.

Bachelor of Biomedical and Health Sciences majoring in Medical Science

SATAC code	ABP136	IB score	30.25
Start date	Feb, July	Guaranteed entry	80 (A,A,B)
Duration	3 years full-time	Assumed knowledge	None
Campus	Adelaide City	Prerequisites	None

Are you fascinated by how our bodies work? Our bodies are complex but amazing biological machines. Discover how the human body functions in health and disease with a Bachelor of Biomedical and Health Sciences majoring in Medical Science. Explore anatomy, physiology, pharmacology and pathology – understanding how treatments for diseases are developed and how they work. With your medical science expertise and valuable insights from across the health field, you'll be prepared to make a global impact in health and care.

Bachelor of Biomedical and Health Sciences majoring in Microbiology and Immunology

SATAC code	ABP136	IB score	30.25
Start date	Feb, July	Guaranteed entry	80 (A,A,B)
Duration	3 years full-time	Assumed knowledge	None
Campus	Adelaide City	Prerequisites	None

Our Bachelor of Biomedical and Health Sciences majoring in Microbiology and Immunology takes you into a fascinating microscopic world, exploring cells and microbes and their far-reaching impact on individuals and communities. Discover how our bodies respond to bacteria, viruses and parasites. Learn how vaccines and antibiotics are developed and used to prevent, treat and control disease.

Experience a curriculum that merges biomedical sciences and applied health. Engage in world-class research. Customise your studies to match your interests. Follow your passion and become an expert in your field, ready to lead discovery and improve health outcomes.

Bachelor of Biomedical and Health Sciences majoring in Neuroscience

SATAC code	ABP136	IB score	30.25
Start date	Feb, July	Guaranteed entry	80 (A,A,B)
Duration	3 years full-time	Assumed knowledge	None
Campus	Adelaide City	Prerequisites	None

If you're fascinated by the inner workings of the brain and its potential, the Bachelor of Biomedical and Health Sciences majoring in Neuroscience is for you. Our degree teaches you everything you need to know about how the nervous system works and communicates. Explore brain development from embryonic stages through to ageing. Investigate how the brain adapts to life experiences and how cognitive training and rehabilitation can improve neuroplasticity. Discover innovative ways to prevent or cure neurological disorders. Neuroscience is a rapidly growing field with endless potential for new discoveries. With your broad health skills and neuroscience expertise, imagine the impact you could make.

Bachelor of Biomedical and Health Sciences majoring in Public Health

SATAC code	ABP136	IB score	30.25
Start date	Feb, July	Guaranteed entry	80 (A,A,B)
Duration	3 years full-time	Assumed knowledge	None
Campus	Adelaide City	Prerequisites	None

Help shape the health and wellbeing of our society through a Bachelor of Biomedical and Health Sciences majoring in Public Health. Public health practitioners address social, cultural, commercial and environmental factors that prevent disease, promote health and wellbeing and protect the health of populations. With an emphasis on advocacy and equity, you'll learn to work with communities and organisations across public and private sectors to develop the practical skills needed to address global health challenges.

Bachelor of Biomedical and Health Sciences majoring in Reproductive and Childhood Health

SATAC code	ABP136	IB score	30.25
Start date	Feb, July	Guaranteed entry	80 (A,A,B)
Duration	3 years full-time	Assumed knowledge	None
Campus	Adelaide City	Prerequisites	None

Discover the essence of human existence with a Bachelor of Health and Medical Sciences majoring in Reproductive and Childhood Health. Explore how genes and cells create new life and uncover how early experiences shape our health and development. Find out how reproductive technology works and how it can be used to help overcome fertility issues. Whether you are intrigued by the possibility of helping couples to overcome infertility, advancing paediatric healthcare, or contributing to groundbreaking research, you'll have the skills and expertise to prepare you for a fascinating and meaningful career.

Bachelor of Human Nutrition

SATAC code	ABP123	IB score	30.25
Start date	Feb, July	Guaranteed entry	80 (A,A,B)
Duration	3 years full-time	Assumed knowledge	None
Campus	Adelaide City, Waite	Prerequisites	None

Why this degree

Food is more than just fuel. It's an integral part of our lives, affecting our health and our happiness. But people's relationships with food can be complicated. And with so many food choices available, how do we know what's best to eat?

Discover how cultural, environmental and social factors can influence our eating habits. Learn how to plan menus, design specialised diets and practise food safety. Explore the latest nutrition research findings. Investigate the relationship between diet and exercise and the importance of nutrition for a sport athlete's performance. Imagine – one day you might be on staff at the Olympics, helping elite athletes to optimise their nutrition to achieve peak performance.

With our Bachelor of Human Nutrition, you'll graduate ready to help people understand the role that nutrition can play in improving their relationship with food and leading a healthier life.

Career outcomes

A degree in nutrition opens doors to a huge variety of fulfilling careers. You might work with kids who are picky eaters, broadening their palates and horizons. You could work in health promotion to help communities improve their diet and health become a hospital nutritionist, designing diet plans to help patients recover faster. You might work in public health, implementing programs and policies to promote healthy eating and exercise. Perhaps you'll embrace science and research – finding new ways to combat world hunger.

Other roles could include:

- Nutritionist
- Health promotion
- Sports nutritionist
- Community health worker
- Health coach
- Food quality and safety manager
- Nutrition educator
- Health coach
- Nutrition science researcher.

You might also like:

- Bachelor of Health Science (Nutrition and Exercise)
- Bachelor of Human Movement majoring in Human Nutrition
- Bachelor of Science majoring in Food Science and Technology.

Bachelor of Laboratory Medicine (Honours)

SATAC code	ABP124	IB score	30.25
Start date	Feb, July	Guaranteed entry	80 (A,A,B)
Duration	4 years full-time	Assumed knowledge	None
Campus	Adelaide City		
Prerequisites	Any one of SACE Stage 2 Physics, Biology or Chemistry (or equivalent).		

Why this degree

Make the diagnosis that could save lives as an accredited medical laboratory scientist.

Medical laboratory scientists play a significant role in Australia's health system. Working in diagnostic pathology laboratories across Australia, they support clinicians by diagnosing, managing and treating diseases through testing patient samples, conducting research into the causes and cures of disease, and developing improved methods for disease detection. The skilled professionals who analyse, interpret and report on this data are crucial in helping clinicians and their patients make informed, timely and life-saving treatment decisions. They also play a critical role in shaping public health initiatives, including disease prevention efforts and developing new diagnostic tests.

Apply your inquisitive and analytical mind in a career where you can make a real and lasting impact.

Career outcomes

As a medical laboratory scientist, you'll support clinicians in the diagnosis, management and treatment of disease. You may recommend treatments, monitor dosage and effects, and track the progress of patients. Medical laboratory scientists also play a pivotal role in making new medical discoveries, developing improved tests for disease detection and shaping public health initiatives.

You might be based in hospital, conducting diagnostic tests on blood and bodily fluids to monitor how patients are responding to treatment. Perhaps you'll be employed by a pharmaceutical company, helping develop and prepare new types of medicines for clinical trials.

Medical laboratory scientists are employed in a wide range of areas, including:

- Clinical biochemistry
- Cytology
- Diagnostic pathology
- Forensic science
- Haematology
- Histopathology
- Immunology
- Medical microbiology
- Product manufacturing
- Public health and health management
- Research
- Transfusion science
- Veterinary medicine
- Virology.

You might also like:

- Bachelor of Biomedical and Health Sciences majoring in Biochemistry
- Bachelor of Pharmaceutical Science
- Bachelor of Science majoring in Microbiology and Immunology.

Bachelor of Public Health

SATAC code	ABP211	IB score	26.25
Start date	Feb, July	Guaranteed entry	70 (B,B,B)
Duration	3 years full-time	Assumed knowledge	None
Campus	Adelaide City	Prerequisites	None

Why this degree

Become an advocate for longer and healthier lives for everyone. Public health does much more than prevent illnesses. It also helps us understand why some populations have better or poorer health outcomes than others. It guides society with strategies and policies to support, promote and protect health and wellbeing for everyone's benefit.

Studying public health means exploring the many factors that influence wellbeing. You'll use research techniques and practice-based skills to investigate big issues in health today. You'll learn how to assess evidence and information critically and develop and deliver health policy and promotion initiatives to improve the health and wellbeing of communities and populations.

By understanding health on a local and global scale, you'll graduate ready to contribute to all areas of public health.

Career outcomes

Public health practitioners are experts in supporting the health and wellbeing of communities and populations, with deep knowledge of health and inter-related systems, and experience of health across diverse population groups. You'll graduate ready to join Australia's growing and in-demand health workforce with broadly applicable skills in collaboration, communication, analysis, planning, and project management. Public health practitioners address social, cultural, commercial and environmental factors that prevent disease, promote health and wellbeing and protect the health of populations. With an emphasis on advocacy, equity and evidence, you'll learn to work with communities and organisations across public and private sectors to develop the practical skills needed to address global health challenges.

You might work in government, communicating new research to the public and keeping people safe during health crises. You could collaborate on projects in remote Aboriginal settings, develop initiatives to support youth mental health, or contribute to improving access to health services for LGBTQIA+ communities. Perhaps you'll lead major campaigns in Australia – whether it's educating youth and parents on strategies for social media use that support better mental health, developing ways to protect people from climate change, or reducing the risk of skin cancer through a catchy jingle.

You could also be a:

- Public health research officer
- Local government officer
- Public health non-government organisation officer
- NGO worker
- Epidemiologist/data analyst
- Clinical studies coordinator
- Community development officer
- Health promotion practitioner
- Policy officer
- Workplace health coordinator.

You might also like:

- Bachelor of Health Science
- Bachelor of Public Health (100% online)
- Bachelor of Mathematics majoring in Statistics.

Diploma in Health

Mode	100% online
Duration	1 year full-time

Why this diploma

Prepare for university study, gain credit towards a bachelors degree in health and apply to a wide range of Adelaide University degrees. With our 100% online Diploma in Health, you'll be introduced to anatomy, human physiology and biosciences while building core skills like critical thinking and research abilities. Get a personalised learning plan to help you choose health electives to take you closer to your career or study goals.

Career outcomes

Your Diploma in Health will give you the core skills to transition into various areas of health. These areas might include:

- Biosciences
- Exercise physiology
- Human movement
- Medical sonography
- Medical radiation science
- Midwifery
- Nursing
- Nutrition and food sciences
- Occupational therapy
- Pharmacy
- Physiotherapy
- Podiatry
- Public Health
- Speech pathology
- Sport sciences.

Bachelor of Community Health

Mode	100% online
Duration	3 years full-time

Why this degree

Explore your passion for holistic health in this 100% online degree. Health is one of the fastest growing sectors in Australia, and there is a strong demand for professionals with skills in non-clinical health, policy and wellbeing.

This degree allows you to put your knowledge into practice. You'll work on real-world projects that can make a difference to your local community and beyond. You'll graduate with the skills to pursue career opportunities supporting community health in a range of areas, including disability and ageing.

We have extensive industry connections and partnerships around the world. These connections enable us to design a curriculum that reflects the latest in community health research and practice.

Career outcomes

There are diverse opportunities for community health professionals in not-for-profit, government and private sectors – with excellent career prospects across metropolitan cities, rural and regional areas.

You can find work in community development organisations, welfare centres, social enterprises, neighbourhood houses, emergency relief agencies, home and community care organisations and residential care facilities. You might design substance abuse recovery initiatives in local clinics. You could manage wellness programs in schools. Perhaps you'll develop health strategies for city councils.

You might also like:

- Bachelor of Health Science
- Bachelor of Public Health
- Bachelor of Social Work.

Bachelor of Health Science

Mode	100% online
Duration	3 years full-time

Why this degree

Work at the heart of healthcare and improve the wellbeing of communities when you study a Bachelor of Health Science 100% online.

Gain the skills to drive real change. Understand the intricate workings of the human body and health systems. Master project management, health promotion and research. Learn to design life-saving health campaigns or lead initiatives that improve the wellbeing of entire communities.

Whether you're designing health campaigns or working in community development, this flexible degree opens doors to a wide range of career paths. Your journey to a rewarding career in health begins here

Career outcomes

With a Bachelor of Health Science, you could become a health promotion officer, creating strategies to enhance community health. Or perhaps you'll work as a health project officer, leading important health initiatives and managing project timelines and budgets.

You might find yourself in a health science writer role, producing engaging content about health topics for various audiences and platforms. Alternatively, you could be a health support worker, assisting clients from diverse backgrounds in various settings.

As a graduate, you'll have the skills to pursue a range of opportunities and roles in:

- Healthcare
- Community organisations
- Government.

You might also like:

- Bachelor of Health Science
- Bachelor of Health Science (Nutrition and Exercise)
- Bachelor of Public Health.

Bachelor of Health Science (Nutrition and Exercise)

Mode	100% online
Duration	3 years full-time

Why this degree

Diabetes, cardiovascular disease and metabolic dysfunction are increasingly common. This calls for informed nutrition and exercise practitioners who can help with both prevention and treatment.

The Bachelor of Health Science (Nutrition and Exercise) is a 100% online degree that builds your skills in two highly complementary fields. Promote nutrition and exercise for preventative health while inspiring a healthy and active society. If you have a passion for nutrition and exercise and love helping people – this degree is for you.

Career outcomes

As a health professional, your career opportunities will be varied. You'll be equipped to work in federal, state and local government, the not-for-profit sector, private enterprise, and community and health agencies. Or, in a hospital, university or a health research institute.

You might be a public health educator, designing workshops to promote healthy eating and exercise habits for communities. You could be a corporate wellness adviser, running programs to help businesses optimise employee health. Perhaps you'll be self-employed as a health coach, supporting individuals to reach their personal wellness goals.

You may decide to specialise in particular client groups such as the elderly or high performing athletes.

You might also like:

- Bachelor of Exercise and Sport Science
- Bachelor of Human Movement majoring in Sport Coaching
- Bachelor of Human Nutrition.

Bachelor of Health Service Management

Mode	100% online
Duration	3 years full-time

Note: This degree is taught across three 13-week terms starting in January, May and August. You can apply for this degree through Open Universities Australia.

Why this degree

Lead health and community wellbeing. With Australia's increasing demand for quality health services, skilled leaders in this industry have a promising career ahead.

Build a solid foundation for success with our 100% online Bachelor of Health Service Management. Learn about business development, entrepreneurship, people management, the health system and marketing and how they apply to health services. Cultivate key skills in health service policy planning and delivery. Understand how social, technological, cultural and economic factors influence contemporary health service delivery.

You'll graduate ready to make an impact in the lives of individuals and communities as a health care leader.

Career outcomes

Australia is facing a growing demand for high-quality health services – driven by an increase in chronic health conditions, the impacts of urbanisation and population growth as well as a population that is living longer.

Our online Bachelor of Health Service Management is designed to meet this growing workforce need. It offers a variety of career paths for those keen to contribute to the efficiency and equity of healthcare across Australia.

You might also like:

- Bachelor of Community Health
- Bachelor of Public Health
- Bachelor of Social Science majoring in Human Services.

Bachelor of Public Health

Mode	100% online
Duration	3 years full-time

Why this degree

Pursue a career saving lives a million at a time with this 100% online degree. Public health is about supporting the wellbeing and resilience of populations. It touches on all aspects of health: preventing disease, addressing health disparities and empowering communities with knowledge.

As a public health practitioner, you can make a real difference to the world around you. You'll be at the forefront of taking action to address global challenges like pandemics, climate change, natural disasters, ageing populations, food security, social disadvantage and chronic disease.

Decipher hidden patterns in health data. Pinpoint people at risk. Design targeted interventions. Give educated advice on health policy. Do more for your community – with your community.

Career outcomes

There are many employment opportunities in public health. You can find roles in grassroots community agencies and all levels of government. You could work locally, with groups like the Heart Foundation or Cancer Council. Or abroad in humanitarian and refugee settings, with international aid organisations like the World Health Organization, UNICEF, UNIAID and the Red Cross.

You could lead nutrition literacy initiatives, developing educational campaigns and tools. You might work in remote Aboriginal communities. Perhaps you'll collaborate with urban planners to design healthier cities – or be at the forefront of disease management and prevention as South Australia's Chief Public Health Officer.

Accreditation

This program is accredited by the International Union for Health Promotion and Education (IUHPE).

Graduates are eligible for membership of IUHPE.

You might also like:

- Bachelor of International Development majoring in International Development
- Bachelor of Social Work
- Bachelor of Sustainability and Climate Change majoring in Sociology.

Medicine, Dental & Oral Health

Degrees

Undergraduate

Bachelor of Dental Surgery

Bachelor of Medical Studies,
Doctor of Medicine

Bachelor of Oral Health

Postgraduate

Doctor of Clinical Dentistry

Graduate Certificate in Oral Health
Science

Graduate Diploma in Forensic
Odontology

Shaping future health leaders

Medicine, dentistry and oral health programs at Adelaide University are delivered by leading clinicians and educators who combine academic excellence with hands-on expertise. Students benefit from small-group learning, state-of-the-art simulation facilities, and dedicated mentoring to support their growth as compassionate and skilled health professionals.

Real-world learning

Through clinical placements and professional practice experiences, students learn directly within hospitals, community health settings, and dental clinics. This strong focus on work-integrated learning helps build practical confidence, professional judgment and connections with industry before graduation.

Career prospects

Graduates of Adelaide’s medicine, dentistry and oral health degrees are highly sought-after, with options to progress into public and private practice, academia, defence and healthcare leadership. They are renowned for clinical competence, patient-centred care and contributions to improving community wellbeing.

World-class research

Adelaide University’s Dental and Medical Schools are leaders in research innovation, focusing on oral health, musculoskeletal systems, specialist areas of dentistry and biodental science, surgical advancements and public health. Students can collaborate with pioneering experts, contributing to discoveries that shape the future of global health and medical science.

Bachelor of Dental Surgery

SATAC code	ABP116	IB score	NA
Start date	Feb	Guaranteed entry	NA
Duration	5 years full-time	Campus	Adelaide City
Prerequisites	One SACE Stage 2 Science subject chosen from Chemistry, Mathematical Methods, Specialist Mathematics, or Physics (or equivalent); PLUS an additional SACE Stage 2 Science subject chosen from Biology, Earth and Environmental Science, Chemistry, or Physics (or equivalent).		
Assumed knowledge	High proficiency in written and spoken English.		
Additional entry requirements:			

To meet the minimum entry academic threshold for entry into the Bachelor of Dental Surgery degree, applicants must achieve a selection rank of 90 or above. Note that strict quotas apply and late applications will not be considered. All applicants with the exception of Aboriginal and Torres Strait Islander pathway applicants are required to register for and sit the University Clinical Aptitude Test (UCAT ANZ). Applicants who score highly enough in the UCAT ANZ will be invited to attend an interview. Ranking for offers is based on a combination of scores from these three components: UCAT ANZ results (20%), Interview results (40%) and academic results (40%). Entry is highly competitive.

Why this degree

Keep your community smiling. Become a dentist and play a part in improving oral health in communities. Choose a profession where you'll become a lifelong learner who cares about your patients and your work.

Dentistry is a science and an art. It's flexible, rewarding and it changes lives. Get ready to enhance people's confidence and quality of life by keeping their teeth and gums healthy.

Career outcomes

As a qualified dentist, you'll be ready for your dynamic career in the dental industry. Dental and oral health professionals are well paid and in demand, with job prospects expected to increase.

Your career paths may include:

- **Private practice:** Start your own clinic, join an established practice, or join a partnership with other dentists and oral health professionals.
- **Public sector:** Work as a dentist in government and community or school-based dental clinics across Australia.
- **Research and academia:** You can also pursue research to advance oral health care. By engaging in dental research, you can contribute to the development of new treatments, preventive strategies, and technologies that improve patient outcomes.
- **Specialist practice:** You can also pursue postgraduate studies in various specialist areas of dentistry which will allow you to register as a dental specialist with the Dental Board of Australia.

Accreditation

This program is accredited by the Australian Dental Council (ADC). Graduates are eligible to apply for registration as a Dentist with the Dental Board of Australia (DBA).

You might also like:

- Bachelor of Biomedical and Health Sciences majoring in Medical Science
- Bachelor of Laboratory Medicine (Honours)
- Bachelor of Oral Health.

Bachelor of Medical Studies, Doctor of Medicine

SATAC code	ABP171 Standard (non-bonded) ABP271 Bonded Medical Program (BMP)		
Start date	Feb	IB score	NA
Duration	3 + 3 years full-time	Guaranteed entry	NA
Campus	Adelaide City		
Prerequisites	Any one of SACE Stage 2 Biology or Chemistry or Mathematical Methods (or equivalent).		
Assumed knowledge	High proficiency in written and spoken English.		
Additional entry requirements:			

To meet the minimum entry academic threshold for entry into the Bachelor of Medical Studies and Doctor of Medicine degree, applicants must achieve a selection rank of 90 or above. Note that strict quotas apply and late applications will not be considered. All applicants with the exception of Aboriginal and Torres Strait Islander pathway applicants are required to register for and sit the University Clinical Aptitude Test (UCAT ANZ). Applicants who score highly enough in the UCAT ANZ will be invited to attend an interview. Ranking for offers is based on a combination of scores from these three components: UCAT ANZ results (20%), Interview results (40%) and academic results (40%). Entry is highly competitive.

Why this degree

Put your passion for healing into action. Medicine is intellectually rewarding, challenging and inspiring. It requires critical problem-solving, teamwork and integrity.

Medical practitioners are passionately interested in wellbeing, working to protect and promote the health of individuals and communities. They are dedicated to alleviating pain and suffering and caring for vulnerable people.

Join a profession where you'll play a critical role in helping people live full and active lives and be a part of a remarkable health culture.

Career outcomes

This degree forms the first part of the broader medicine program; upon successful completion, you'll gain direct entry into the Doctor of Medicine. Together, these degrees will qualify you to practise medicine anywhere in Australia and throughout most of the world.

As a medical graduate, you'll be in demand for positions in a variety of settings including:

- Public hospitals
- Private practice
- Public health
- Teaching
- Clinical research
- Research including Clinical research
- Aid organisations
- The defence forces.

Graduates from this degree can also consider roles such as health educator, health officer, laboratory manager, medical scientist and medical technician.

Accreditation

These programs are accredited by the Australian Medical Council (AMC). Graduates who complete both programs are eligible for provisional registration with the Australian Health Practitioner Regulation Agency to undertake an internship and, upon successful completion, will be eligible for general medical registration in Australia.

You might also like:

- Bachelor of Biomedical and Health Sciences majoring in Medical Science
- Bachelor of Dental Surgery
- Bachelor of Oral Health.

Bachelor of Oral Health

SATAC code	ABP126	IB score	NA
Start date	Feb	Guaranteed entry	NA
Duration	3 years full-time	Campus	Adelaide City
Prerequisites	Any 20-credit SACE Stage 2 Tertiary Admission Subject from the Mathematics or Science Learning Areas (or equivalent).		
Assumed knowledge	High proficiency in written and spoken English.		
Additional entry requirements:			

To meet the minimum entry academic threshold for entry into the Bachelor of Oral Health degree, applicants must achieve a selection rank of 70 or above. Note that strict quotas apply and late applications will not be considered. All applicants with the exception of Aboriginal and Torres Strait Islander pathway applicants are required to register for and sit the University Clinical Aptitude Test (UCAT ANZ). Applicants who score highly enough in the UCAT ANZ will be invited to attend an interview. Ranking for offers is based on a combination of scores from these three components: UCAT ANZ results (20%), Interview results (40%) and academic results (40%). Entry is highly competitive.

Why this degree

If eyes are the window to your soul, your mouth is a window to overall health. Teeth and gums are essential for speaking and eating, but they also reveal broader health issues. Neglecting them can lead to serious conditions like heart disease, strokes or chest infections.

Become a guardian of wellbeing by studying oral health. You'll support dental hygiene, provide oral health therapies and maintenance, and promote good dental habits that last a lifetime.

Catch dental problems before they become serious. Relieve pain and discomfort. Restore confidence and reduce the burden on our healthcare system. Contribute to a healthier and fairer society where everyone gets the dental care they need. Ready to make people smile?

Career outcomes

As an oral health therapist, you'll play a key role in dental teams, delivering high quality clinical care to people of all ages.

You might create personalised care plans for people with gum disease. Perhaps you'll work on improving dental care accessibility in remote communities - or develop innovative educational programs to teach primary school students the importance of good dental hygiene. You might even start your own oral health clinic with the talented dental professionals you meet during your time at Adelaide University.

Potential career paths include:

- Oral health therapy
- Dental therapy and hygiene
- Health promotion and education
- Paediatric to geriatric dentistry
- Health administration
- Aboriginal and Torres Strait Islander health studies
- Special needs dentistry
- Dental research.

This degree also opens the door to further postgraduate studies.

Accreditation

This program is accredited by the Australian Dental Council (ADC). Graduates are eligible to apply for registration as an Oral Health Therapist/Dental Hygienist/Dental Therapist with the Dental Board of Australia (DBA).

You might also like:

- Bachelor of Dental Surgery
- Bachelor of Medical Studies.

Nursing & Midwifery

Degrees

Undergraduate

Bachelor of Midwifery

Bachelor of Nursing

Postgraduate

Graduate Diploma in Maternal, Child and Family Health

Master of Midwifery

Master of Midwifery (Graduate Entry)

Master of Nursing

Master of Nursing (Graduate Entry)

Master of Nursing (Nurse Practitioner)

Care at every stage of life

Nursing and Midwifery at Adelaide University prepares you to provide compassionate, evidence-based care across diverse healthcare settings. Supported by expert educators and modern simulation environments, you'll gain the skills and insight to make a difference in people's lives when it matters most.

Learning through experience

Our degrees are hands-on. From first year, nursing students complete professional experience practice (PEP) in metropolitan, regional and rural hospitals and health services completing 880 hours of hands-on clinical experience. For midwifery students, midwifery practice experience (MPE) and Continuity of Care Experiences immerse you in women's journeys, deepening your practical understanding of midwifery practice.

World-class research

Through our active partnerships and engagement with industry partners and research institutes, our leading research in Nursing and Midwifery is translational, enhancing practice and informing policy, healthcare delivery and workforce to deliver people-first outcomes. You can help strengthen Australia's healthcare system by driving impactful research in maternal health, nursing practice, policy and primary health.

Career prospects

Graduates step into Australia's healthcare system as highly employable, forward-thinking midwives or registered nurses. You'll finish your degree with the confidence and capability to practice as an industry-ready practitioner, committed to lifelong learning and grounded in woman or person-centred care. Whether your path leads you to clinical practice, policy advocacy, workforce leadership or innovative research, you'll be prepared to make a meaningful difference from day one.

Bachelor of Midwifery

SATAC code	ABP172 – Adelaide City ABP173 – Mount Gambier ABP174 - Whyalla	IB score	35.25
Start date	Feb	Guaranteed entry	90 (A,A,A)
Duration	3 years full-time	Assumed knowledge	None
Campus	Adelaide City or Mount Gambier or Whyalla	Prerequisites	None

Why this degree

As a midwife, you will be a trusted guide, mentor, and source of strength during one of life's most profound experiences.

You'll support women and their families through every stage of pregnancy, birth, and beyond – witnessing the arrival of new life while offering essential care and wisdom in the critical postnatal period. Your guidance will empower new parents with the confidence and skills they need to thrive in their new roles.

You'll be there for one of the most significant moments in a family's life. Long after the mother and baby have returned home, your compassion, expertise and dedication will be remembered.

Career outcomes

As a midwife, you'll lead the way in maternity care, providing women with expert guidance and reassurance throughout their pregnancies. During birth, you'll play a hands-on role, and in the crucial days that follow, you'll continue to support women and their families.

As a midwife, you'll have opportunities to work in group practices, providing care to women within caseload models. You could offer family planning support, guide women through pregnancy and birth in a hospital setting or assist with home births.

Roles are available in multidisciplinary healthcare teams in a range of settings, including:

- Community services
- Public or private hospitals
- Rural and remote healthcare
- Home-based services
- Health agencies
- Midwifery education
- Research
- Private practice.

Accreditation

This program is accredited by the Australian Nursing and Midwifery Accreditation Council (ANMAC) and approved by the Nursing and Midwifery Board of Australia (NMBA). Graduates are eligible to apply for registration as a 'Registered Midwife' with the NMBA.

You might also like:

- Bachelor of Biomedical and Health Sciences majoring in Reproductive and Childhood Health
- Bachelor of Nursing
- Bachelor of Social Work.

Bachelor of Nursing

SATAC code	ABP186 – Adelaide City ABP187 – Mount Gambier ABP188 - Whyalla	IB score	30.25
Start date	Feb, July	Guaranteed entry	80 (A,A,B)
Duration	3 years full-time	Assumed knowledge	None
Campus	Adelaide City or Mount Gambier or Whyalla	Prerequisites	None

ABP244 Bachelor of Nursing (Pathway for Enrolled Nurses)
ABP245 Bachelor of Nursing (Pathway for Enrolled Nurses) (Mount Gambier)
ABP246 Bachelor of Nursing (Pathway for Enrolled Nurses) (Whyalla)
ABP243 Bachelor of Nursing (Online)
ABP247 Bachelor of Nursing (Pathway for Enrolled Nurses) (Online)

Why this degree

Nurses are at the heart of our hospitals and health sector. They play a vital role in meeting today's complex and evolving health needs.

Whether it's at the height of a pandemic or delivering community care, nurses make a difference by providing quality treatment and support.

Get ready to put yourself at the forefront of patient care and develop your skills in this rewarding and growing field.

Career outcomes

Be ready to embark on a career as a registered nurse, working at the forefront of a dynamic and vital industry.

Your career options as a healthcare professional will be extensive. You could provide patient care in a variety of settings, including:

- Public or private hospitals
- Community support services
- Aged and rehabilitative care
- Schools
- Home care
- Drug and alcohol treatment centres
- Community health organisations
- Mental health services
- International aid agencies
- Corrections facilities
- Management.

Accreditation

This program is accredited by the Australian Nursing and Midwifery Accreditation Council (ANMAC) and approved by the Nursing and Midwifery Board of Australia (NMBA). Graduates are eligible to apply for registration as a 'Registered Nurse' with the NMBA.

Empowering people

Around 30% of Australians experience some form of disadvantage while almost 50% will experience a mental health condition in their lifetime. Skilled professionals are essential in supporting and empowering individuals and communities to improve inclusion and wellbeing. Guided by our world-class teaching staff you'll discover techniques to develop rapport, ask effective questions, interact with cultural sensitivity and communicate clearly.

Practical learning experiences

You'll be supported to develop the skills and knowledge that will enable you to drive improved social outcomes. You'll access work-integrated learning opportunities such as internships and placements while simulated practical learning experiences, utilising public clinics like our Psychology Clinic that will build your knowledge and confidence in a supported environment.

World-class research

Your learning will be informed and supported by world-class research. With on campus research centres like the Behaviour-Brain-Body Research Centre, you'll be at the cutting-edge of real-world breakthroughs.

Career prospects

Healthcare and social assistance has been the primary industry for new jobs within the Australian labour market since the 1990s, and with waitlists for mental health services continuing to climb, the demand for qualified professionals has never been greater.*

Bachelor of Psychology

SATAC code	ABP196	IB score	26.25
Start date	Feb, July	Guaranteed entry	70 (B,B,B)
Duration	3 years full-time	Assumed knowledge	None
Campus	Adelaide City, Magill	Prerequisites	None

Why this degree

Why do people act the way they do? What makes one person behave in one way, and another completely differently? With psychology, you'll unravel these mysteries and more. It's not just about mental health – it's about understanding human behaviour in every corner of society.

Discover how history, society and culture shape our views of ourselves and others. Learn to gather and apply evidence, separating fact from fiction in today's digital age of misinformation. Deepen your active listening and empathy with practical experiences that bring theory to life. Embrace the richness of cross-cultural psychology, developing skills to work with people from diverse backgrounds.

Our Bachelor of Psychology prepares you for a huge range of exciting careers where people are at the centre of everything you do.

Career outcomes

With its focus on understanding human behaviour, our Bachelor of Psychology provides an exceptional foundation for work in a diverse range areas.

You might work in community and welfare services, improving outcomes for vulnerable people and their communities. You might research attitudes and consumer behaviour, guiding organisations to adopt more sustainable practices. You may work in a tech start-up that is pushing boundaries with new human-device technology, helping to streamline the user experience.

Other areas you might work include:

- Politics and governance
- Marketing
- Social work
- Global relations
- Health care and therapy
- Human resources.

If you wish to become a registered psychologist, further study is required through our Bachelor of Psychology (Honours) or 100% Online Graduate Diploma in Psychology (Advanced).

Accreditation

This program is accredited by the Australian Psychology Accreditation Council (APAC).

You might also like:

- Bachelor of Psychology (Honours)
- Bachelor of Psychology (Counselling and Interpersonal Skills)
- Bachelor of Psychological Sciences and Sociology.

Bachelor of Psychology (Cognitive Neuroscience)

SATAC code	ABP196	IB score	26.25
Start date	Feb, July	Guaranteed entry	70 (B,B,B)
Duration	3 years full-time	Assumed knowledge	None
Campus	Adelaide City, Magill	Prerequisites	None

Why this degree

Investigate the relationship between the brain and human behaviour. Cognitive psychology blends psychology and biology to explain how we process thoughts, memories, languages and actions. Discover developmental psychology, data science, psychological research methods, human biology, language development and more.

Career outcomes

Individuals with the ability to connect with and understand people on a deep level are highly sought-after in every industry powered by human interaction. If a sector serves members of a community – whether in an educational, workplace, human services, or healthcare setting – the ability to listen, ask good questions, and provide the right support are all crucial skills.

With its focus on uncovering the connections between brain function and human behaviour, our Bachelor of Psychology (Cognitive Neuroscience) provides an exceptional foundation for a career in a range of diverse settings.

You could work as a UX researcher, learning how people interact with websites, products, and software to enhance accessibility and useability. Maybe you'll work as a coach, helping clients set and achieve their professional or personal goals through motivational techniques and behaviour change strategies. Or perhaps you'll use your knowledge of cognitive psychology to analyse consumer behaviour and develop effective marketing or advertising strategies.

For those interested in becoming a registered psychologist, further study is required through the Bachelor of Psychology (Honours) (Cognitive Neuroscience).

Accreditation

This program is accredited by the Australian Psychology Accreditation Council (APAC).

You might also like:

- Bachelor of Psychology (Honours)
- Bachelor of Psychology (Honours) (Cognitive Neuroscience)
- Bachelor of Speech Pathology (Honours).

Bachelor of Psychology (Counselling and Interpersonal Skills)

SATAC code	ABP196	IB score	26.25
Start date	Feb, July	Guaranteed entry	70 (B,B,B)
Duration	3 years full-time	Assumed knowledge	None
Campus	Adelaide City, Magill	Prerequisites	None

Why this degree

Great counsellors are a light in the dark, helping people through some of life's most challenging experiences. While psychology takes a broad approach to human behaviour – examining why people think and act the way they do – counselling offers tailored support to help individuals address specific issues.

Through our Bachelor of Psychology (Counselling and Interpersonal Skills), you'll get the best of both worlds. You'll gain a sound knowledge of psychology, as well as the analytical, communication and interpersonal skills needed for a meaningful career enhancing the wellbeing of individuals, groups and communities.

Career outcomes

Counsellors and psychologists play a pivotal role in enhancing people's mental health, wellbeing, and overall functioning. Individuals with the ability to connect with people on a deeper level to effect positive change are sought-after after by a range of people-focused organisations and teams.

You could provide professional development support to early-career staff. Maybe you'll work with cities or neighbourhoods to develop social programs for adults living with learning difficulties. Or perhaps you'll support reunification programs for children and families affected by state intervention.

With its focus on fit-for-purpose counselling strategies, our Bachelor of Psychology (Counselling and Interpersonal Skills) provides an exceptional foundation for a career in a range of diverse settings.

For those interested in becoming a registered counsellor or psychologist, further study is required. Continue the journey with our Bachelor of Psychology (Honours) (Counselling and Interpersonal Skills) before completing a master's degree in counselling or psychology.

Accreditation

This program is accredited by the Australian Psychology Accreditation Council (APAC).

You might also like:

- Bachelor of Communication
- Bachelor of Psychology
- Bachelor of Psychology (Honours) (Counselling and Interpersonal Skills).

Bachelor of Psychology (Honours)

SATAC code	ABP197	IB score	NA
Start date	Feb	Guaranteed entry	NA
Duration	4 years full-time	Assumed knowledge	None
Campus	Adelaide City, Magill	Prerequisites	None

Why this degree

For as long as humans have lived, we've sought to understand ourselves and others in a deeper way.

Psychology explores thoughts, emotions, behaviour and the connections between the three. It aims to understand how people act and think in various situations. It also examines how different therapeutic approaches may help people to better navigate tough times and make desired life changes.

Career outcomes

To become a psychologist in Australia, you must complete a minimum six-year sequence of study to achieve registration. The first step on this journey is completing our four-year Bachelor of Psychology (Honours), followed by additional postgraduate study.

Alternatively, the strong understanding in human behaviour gained through our Bachelor of Psychology (Honours) provides an exceptional foundation for work in a diverse range of areas where an understanding of human behaviour is key.

Maybe you'll take on a community caseworker role, improving outcomes for vulnerable people and their communities. You could work as a change management consultant, applying your insights to assess the potential impacts and opportunities for organisational change. Or perhaps you'll research attitudes and consumer behaviour as a market analyst, helping businesses develop new strategies for reaching their target audiences.

Accreditation

This program is accredited by the Australian Psychology Accreditation Council (APAC). Graduates will be eligible to apply for postgraduate study in psychology.

You might also like:

- Bachelor of Psychology
- Bachelor of Psychology (Honours) (Cognitive Neuroscience)
- Bachelor of Psychology (Honours) (Counselling and Interpersonal Skills).

Bachelor of Psychology (Honours) (Cognitive Neuroscience)

SATAC code	ABP198	IB score	NA
Start date	Feb	Guaranteed entry	NA
Duration	4 years full-time	Assumed knowledge	None
Campus	Adelaide City, Magill	Prerequisites	None

Why this degree

Understand the psychology and biology of the human brain.

Explore why we think, feel and behave the way we do. Learn how our brains process information. Gain a dual expertise in cognitive psychology and neuroscience. Put your skills into practice in our dedicated campus facilities. Apply your knowledge in real-world environments.

You'll graduate ready to step into exciting careers supporting many industries' most valuable asset – its human workforce. Your honours year will teach you advanced research skills and equip you for professional practice, as well as being the first step down the path to becoming a registered psychologist.

Career outcomes

Our global workforce is largely made up of humans. Professionals who understand how people work, how to support them and how to improve resilience are extremely valuable. You'll be able to use your knowledge of human brains and behaviour in a variety of different industries.

You might use your knowledge of the human mind to deliver impactful marketing campaigns. You could use psychological insights to help businesses with employee recruitment, training and development. Perhaps you'll help research synaesthesia, cyborgs, dream engineering, or even cryonics and brain preservation.

You can also use this degree to progress towards professional registration as a psychologist through our Master of Psychology.

Accreditation

This program is accredited by the Australian Psychology Accreditation Council (APAC). Graduates will be eligible to apply for postgraduate study in psychology.

You might also like:

- Bachelor of Psychology (Cognitive Neuroscience)
- Bachelor of Science majoring in Biochemistry
- Bachelor of Social Work (Honours).

Bachelor of Psychology (Honours) (Counselling and Interpersonal Skills)

SATAC code	ABP199	IB score	NA
Start date	Feb	Guaranteed entry	NA
Duration	4 years full-time	Assumed knowledge	None
Campus	Adelaide City, Magill	Prerequisites	None

Why this degree

Great counsellors are a light in the dark, helping people through some of life's most challenging experiences. While psychology takes a broad approach to human behaviour – examining why people think and act the way they do – counselling offers tailored support to help individuals address specific issues.

The Bachelor of Psychology (Honours) (Counselling and Interpersonal Skills) gives you the best of both worlds. You'll gain a sound knowledge of psychology, as well as the analytical, communication and interpersonal skills needed for a meaningful career enhancing the wellbeing of individuals, groups and communities.

Career outcomes

Mental health workers in counselling and psychology are invaluable members of our care workforce. They help people live longer, healthier and more fulfilled lives.

You'll be able to connect with people on a deep level, and apply your skills in care into all kinds of workplace environments.

You might work directly with clients as a peer worker. You could contribute to health frameworks that better support employee wellbeing. Perhaps you'll find a research role, investigating why people develop mental health conditions.

You can also use this degree to continue on towards professional registration as a psychologist through our Master of Psychology.

Accreditation

This program is accredited by the Australian Psychology Accreditation Council (APAC). Graduates will be eligible to apply for postgraduate study in psychology.

You might also like:

- Bachelor of Psychology (Honours) (Cognitive Neuroscience)
- Bachelor of Social Work (Honours)
- Bachelor of Teaching (Secondary) (Honours).

Bachelor of Psychology (Honours) 1-year

SATAC code	ABP111	IB score	NA
Start date	Feb	Guaranteed entry	NA
Duration	1 year full-time	Assumed knowledge	None
Campus	Adelaide City, Magill	Prerequisites	None

Why this degree

Build the professional skills needed for a future in psychology.

In this program, you'll complete a major research project, under the guidance of experienced psychology staff. To grow your confidence, you'll work on real-life scenarios.

You'll emerge as a competent, socially conscious and reflexive graduate. You'll be equipped to start a rewarding career, pursue postgraduate research or carry on your studies to registration as a psychologist.

Career outcomes

To become a psychologist in Australia, you must complete a minimum six-year sequence of study to achieve registration. Completion of this honours program is crucial for this process, followed by additional postgraduate study.

A psychology career is highly versatile. Skills in assessment, communication and behaviour change are valued across all industries. You might join human resources, improving workplace culture, recruitment and training. You could find a role in government, developing policy that supports communities and services. Perhaps you'll carry your studies on into research, contributing new insights about human behaviour or cognition.

Outside of registered pathways, psychology graduates can work in:

- Mental health care
- Hospitals
- Schools
- Businesses
- Not-for-profits
- Family services
- Defence
- Sport
- Coaching or consulting.

Accreditation

This program is accredited by the Australian Psychology Accreditation Council (APAC). Graduates will be eligible to apply for postgraduate study in psychology.

Undergraduate Certificate in Mental Health

Mode	100% online
Duration	0.5 years full-time

Why this degree

Lead with compassion and make a meaningful difference.

Mental health professionals help people understand their emotions and behaviour to constructively manage their lives. With an Undergraduate Certificate in Mental Health you'll get started on your journey towards a rewarding career. Gain foundational knowledge in psychology and counselling and understand the complexities of working in the mental health sector.

Use this 100% online undergraduate certificate as a pathway into a bachelor's degree in psychology, psychological science and sociology, public health, or community health. Or use your new qualification to work in entry-level positions in the health, education, business and social service sectors.

Career outcomes

Our Undergraduate Certificate in Mental Health will give you a valuable knowledge base.

Use your qualification to make a positive impact on community mental health and wellbeing or pursue further study to become a registered psychologist or counsellor. If you already work in social work, education, nursing, or criminal justice, this certificate will help deepen your understanding of mental health and make you more effective in your current role. Use credit from your studies to transition into a range of undergraduate degrees.

It could also be useful for attaining entry-level positions including:

- Mental health support worker
- Youth services assistant
- Community services officer.

You can use credit from your studies to transition into the following 100% online degrees:

- Bachelor of Community Health
- Bachelor of Psychology
- Bachelor of Psychological Science and Sociology
- Bachelor of Public Health.

With further study, you could be a:

- Counsellor (with honours and postgraduate study)
- Registered psychologist (with honours and postgraduate study)
- Case manager
- Community development officer
- Human services officer
- Policy or research officer
- Behavioural or market research assistant.

Undergraduate Certificate in Psychology

Mode	100% online
Duration	0.5 years full-time

Why this degree

Unpack human thinking and behaviour on your journey to make a difference.

Studying psychology helps us move through the world with more empathy, better communication and purpose. With Adelaide University's Undergraduate Certificate in Psychology, take the first step towards building a rewarding career. Over six months of full-time study and 100% online, be introduced to key methods and concepts of psychology. Understand the link between scientific knowledge and effective clinical practice. Develop skills in literature searches and reviews, critical analysis and communication.

Use this certificate as a pathway into a bachelor's degree in psychology, psychological science and sociology, public health, or community health. Or complete this certificate and apply your knowledge to entry-level positions across health, education, business and social service sectors.

Career outcomes

Our Undergraduate Certificate in Psychology will give you a valuable foundation of knowledge. Use your qualification to make a positive impact on community health and wellbeing, better understand human behaviour to effectively manage people, or pursue further study to become a registered psychologist.

Our undergraduate certificate in psychology could lead you to the following entry-level roles:

- Mental health or disability support worker
- Youth services assistant
- Community services officer
- Recruitment or HR assistant
- Office or customer service manager.

You can use credit from your studies to transition into the following 100% online degrees:

- Bachelor of Psychology
- Bachelor of Psychological Science and Sociology
- Bachelor of Public Health
- Bachelor of Community Health.

With further study, you could be a:

- Registered psychologist (requires honours and postgraduate study)
- Counsellor (requires honours and postgraduate study)
- Case manager
- Community development officer
- Policy or research officer
- Human services officer
- Behavioural or market research assistant.

Bachelor of Psychological Sciences and Sociology

Mode	100% online
Duration	3 years full-time

Why this degree

The world needs people who understand people. With an ageing population, and the continuous review of systems like the National Disability Insurance Scheme (NDIS), emerging professionals in Australia need to be able to adapt to changing environments.

With this 100% online degree, you can gain a complementary and much-needed skillset. You'll have a competitive advantage in human services, psychology, counselling, social and community services, and community healthcare.

Gain insights into human behaviour and resilience. Find roles in government and not-for-profit organisations. Lead efforts to support vulnerable populations, address social inequalities, advocate for change, and build stronger communities.

Career outcomes

Professionals with knowledge in both psychology and sociology are better equipped to solve real-world issues. You can apply your interdisciplinary knowledge to support individuals and communities in leading happier, healthier and more independent lives.

You could work one-on-one with individuals or families. You might collaborate with small to medium communities such as neighbourhoods, schools and support groups. Perhaps you'll find your calling on a larger scale, advocating for policy changes on behalf of clients, organisations or governments.

You might also like:

- Bachelor of Arts majoring in Sociology
- Bachelor of Psychology
- Bachelor of Social Science majoring in Human Services.

Bachelor of Psychology

Mode	100% online
Duration	3 years full-time

Why this degree

Want a meaningful career in a field that truly helps others? A psychology degree opens up exciting options for your future.

You'll study everything from cognitive development to learning and behaviour modification and about psychological health and disorders, gaining advanced insights into how people function.

Explore the science behind human behaviour. Learn how to analyse thought patterns, emotions and actions. Develop the skills to make a real impact, whether through research, counselling or community services.

You'll graduate ready to support individuals and communities to not just live well, but flourish.

Career outcomes

With a psychology degree, you can support individuals and communities in meaningful and life-changing ways.

You might become a counsellor, helping people navigate life's challenges. You could work in community services, providing essential support to those in need. Maybe you'll contribute to innovative research, exploring human behaviour and improving mental health outcomes.

You can also apply your expertise in fields like marketing, business, advertising, criminal justice, education, healthcare, and the sustainability sector. Or, find work in human resources, where you can use your insights to improve workplace dynamics among staff.

You can also go on to complete further specialised postgraduate study to deepen your skills and career prospects in the field.

Accreditation

This program is accredited by the Australian Psychology Accreditation Council (APAC).

You might also like:

- Bachelor of Community Health
- Bachelor of Psychological Sciences and Sociology
- Bachelor of Social Work.

Further study

Completed an undergraduate degree, and looking to hone your expertise?

Whatever your career stage or goal, we offer a range of postgraduate qualifications designed to help you advance your skills. We've included a snapshot of the degrees available.

Explore the full suite at: adelaide.edu.au/study

Master of Psychology (Clinical)

SATAC code	ACM198	Duration	2 years full-time
Start date	Jan	Campus	Adelaide City, Magill

In life's toughest moments, clinical psychologists offer hope and guidance. They support individuals through their darkest days – assessing them by listening and observing and assisting with strategies to give evidence-based care for better mental health.

The best clinical psychologists have exceptional interpersonal skills, a logical mind and genuine empathy. If this sounds like you, make clinical psychology your path to a rewarding career that improves lives. Blending scientific research with compassionate care, you'll explore how to apply research to practice, across the lifespan and with people from diverse backgrounds. You'll learn specialist skills in the assessment, diagnosis and treatment of major mental illnesses and psychological problems.

Become a source of support and compassion during challenging times. Build strong, trusting connections and advocate for improved mental health care. Play your part in building a healthier, more supportive society.

Career outcomes

The Master of Psychology (Clinical) prepares you to become a highly skilled and empathetic psychologist. You might support a client who has experienced trauma to help them process their experiences and rebuild their life.

You could provide therapy to a family with a teenager facing mental health challenges, helping create a supportive family environment that encourages healing and resilience. Perhaps you'll assist clients through major life transitions, providing a safe space for them to explore their emotions and move forward with acceptance and hope. Perhaps you will conduct psychoeducational and social-emotional assessments to support students to thrive in their academic development. You could also contribute to the field by researching new therapeutic approaches or underlying causes of mental health disorders.

With a degree in clinical psychology, you'll be well prepared for various roles, including:

- Psychologist
- Clinical psychologist
- Clinical psychology researcher.

Accreditation

This program is accredited by the Australian Psychology Accreditation Council (APAC). It provides graduates with the tertiary-level education required to be eligible for general registration as a Psychologist with the Psychology Board of Australia. Graduates may also choose to undertake a supervised registrar program, where upon successful completion they can gain endorsement by the Psychology Board of Australia as a Clinical Psychologist.

Looking to become a psychologist?

Our Graduate Diploma in Psychology is an essential first step. You'll also need to complete other programs accredited by the Australian Psychology Accreditation Council, including an Honours or Graduate Diploma of Psychology (Advanced) and a master's program.

Further study

Master of Nursing (Nurse Practitioner)

SATAC code	ACM181	Duration	3 years part-time only
Start date	Feb, July	Campus	Adelaide City

Take your career and your nursing practice to the next level as a Nurse Practitioner.

Nurse Practitioners play an important role in the healthcare workforce. Building on the responsibilities of Registered Nurses, they provide advanced, autonomous and clinically focused care across all stages of life.

This is a high-demand field with great job security and the flexibility to work anywhere in Australia. Advance your scope of practice and deliver person-centred care. Influence health delivery and become a leader in the profession. Make a lasting difference for the health needs of all Australians.

Career outcomes

Once you've successfully completed this degree, you'll be eligible to seek endorsement as a Nurse Practitioner in your aligned scope of practice. This will allow you to take on a range of additional advanced responsibilities in roles across Australia. You might develop and manage holistic treatment plans to address physical and mental health needs. You may perform advanced health assessments, investigating, diagnosing and providing treatment plans including prescribing, de-prescribing and referring to other health professionals.

Accreditation

This program is accredited by the Australian Nursing and Midwifery Accreditation Council (ANMAC) and approved by the Nursing and Midwifery Board of Australia (NMBA). Graduates are eligible to apply for registration as a 'Registered Nurse' with the NMBA.

Master of Medical Sonography (General)

SATAC code	ACM232	Duration	3 years part-time only
Start date	Feb, July	Campus	Adelaide City
Prerequisites	Human Anatomy, which includes anatomy of the head and neck, thorax, abdomen and pelvis and musculoskeletal and vascular systems (at least one course equivalent); AND Human Physiology (at least two courses equivalent); AND Human Pathology or Pathophysiology (at least one course equivalent); OR equivalent courses in a sonography-specific program.		

Enter a career where every day offers the chance to save lives and change futures.

Imagine being at the cutting edge of healthcare, using advanced imaging technology to help diagnose and treat patients. Your skills could make a life-saving difference every day.

From guiding patients through their exams to delivering critical images that doctors rely on, sonographers play a vital role in improving lives.

Whether you're working in a hospital, clinic or specialised imaging centre. You'll bring expert care to those who need it – when they need it most.

Career outcomes

After graduating you might find yourself working as a sonographer in a busy city hospital or private imaging clinic, using advanced ultrasound technology to help diagnose and monitor patients with complex conditions and collaborate closely with physicians to develop treatment plans.

Your employments are diverse and could include work in:

- Outpatient imaging centres
- Research institutions
- Educational and training facilities
- Rural and remote healthcare services
- Remote diagnostic services
- Government health departments and agencies.

Accreditation

This program is accredited by the Australian Sonographer Accreditation Registry (ASAR). Graduates are eligible to apply to ASAR to become a registered Medical Sonographer under the category of General Sonographer.

Doctor of Clinical Dentistry

SATAC code	NA	Duration	3 years full-time only (no part-time option)
Start date	Feb	Campus	Adelaide City

The Doctor of Clinical Dentistry program at Adelaide University provides specialist training for general dentists who want to undertake postgraduate training in specific disciplines of dentistry.

Study with the pinnacle of dental education at Adelaide University and make significant contributions to oral health that support optimal general health outcomes through our combined clinical training and research program. Experience cutting-edge dental technologies in the Adelaide Dental Hospital while also completing clinical placements at public healthcare facilities. Cultivate academic research skills through the presentation of a research dissertation and foster a deep understanding of the intricate relationships between oral health and wellbeing.

Career outcomes

This program is accredited by the Australian Dental Council and graduates can register as a dental specialist in their selected discipline with the Dental Board of Australia.

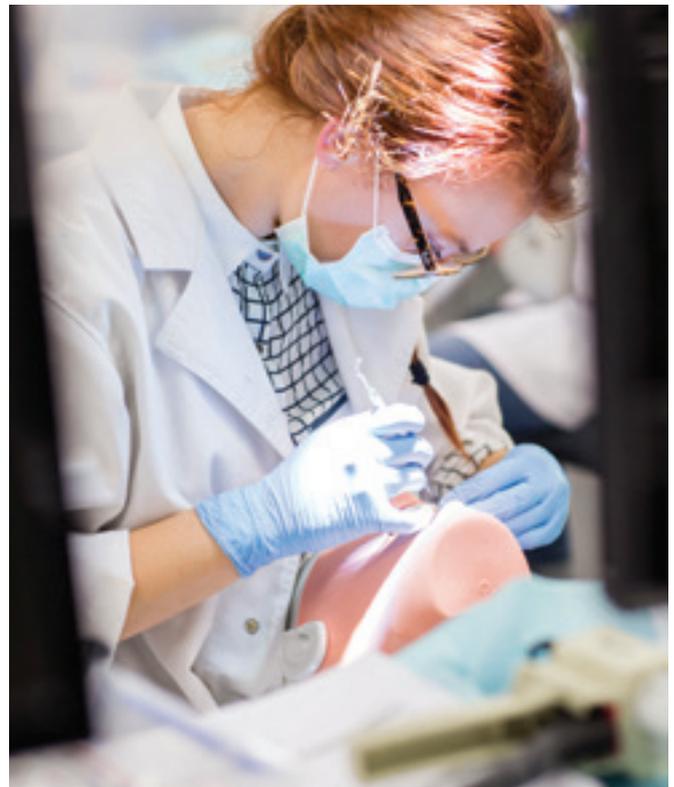

Graduate ready to redefine your capabilities, make an impact on the field of dentistry, and enhance lives on your chosen dentistry path.

Depending on your specialisation, careers can include:

- Orthodontist
- Periodontist
- Prosthodontist
- Endodontist
- Special Needs Dentist.

Accreditation

This program is accredited by the Australian Dental Council (ADC). Graduates are eligible to apply for registration as a Specialist Dentist with the Dental Board of Australia (DBA).

Further study

Master of Midwifery (Graduate Entry)

SATAC code	ACM174	Duration	2 years full-time
Start date	July	Campus	Adelaide City

From pregnancy to birth, to baby and beyond. Develop the practical skills and knowledge to provide woman-centred and family-focused midwifery care. Working in partnership with women and families, you'll support their social, emotional, physical, and cultural needs during pregnancy, birthing and early infancy. Be immersed in a hands-on approach to learning through both simulated and real-life practical experiences. Explore the political, socio-cultural, economic and technological influences on modern midwifery. Develop essential research and leadership skills to inform and complement your practice.

Career outcomes

You'll graduate with the skills and knowledge to provide expert care and support to women through their reproductive journey.

Accreditation

This program is accredited by the Australian Nursing and Midwifery Accreditation Council (ANMAC) and approved by the Nursing and Midwifery Board of Australia (NMBA). Graduates are eligible to apply for registration as a 'Registered Nurse' with the NMBA.

Master of Nursing (Graduate Entry)

SATAC code	ACM179	Duration	2 years full-time
Start date	July	Campus	Adelaide City

Join the registered nurse workforce in just two years.

A career as a registered nurse (RN) is deeply rewarding. Registered nurses work as the backbone of Australia's healthcare system, working in and with different departments, locations and people. Each day is different and offers both challenges and opportunities to provide care. Studying nursing via graduate entry will prepare you to become a registered nurse in an accelerated two-year degree. Engage in over 800 hours of hands-on learning and placements in clinical environments.

Career outcomes

Registered nurses work all over Australia. They work in our hospitals, community clinics and in rural areas, providing patient-centred care for adults and children alike.

Accreditation

This program is accredited by the Australian Nursing and Midwifery Accreditation Council (ANMAC) and approved by the Nursing and Midwifery Board of Australia (NMBA). Graduates are eligible to apply for registration as a 'Registered Nurse' with the NMBA.

Looking for a career change?

Apply your existing skills and undergraduate qualifications into exciting new career paths.

We offer Graduate Entry programs to streamline your process into AHPRA-accredited qualifications in less time than a bachelor's degree.

adelaide.edu.au/study

Master of Occupational Therapy (Graduate Entry)

SATAC code	ACM182	Duration	2 years full-time
Start date	Feb	Campus	Adelaide City
Prerequisites	<p>Applicants are required to provide evidence of satisfactory completion of prerequisite courses in the last 10 years in the following content areas:</p> <ul style="list-style-type: none"> • 0.125 EFTSL Human Anatomy; AND • 0.125 EFTSL Human Physiology; AND • 0.125 EFTSL Human Psychology or Sociology/ Anthropology; AND • 0.125 EFTSL Research Methodologies. 		

Support people to thrive as an occupational therapist.

Whether it's empowering someone to build their independence after a major life event, supporting a child in reaching their potential at school, or enabling adults to sustain their dignity and autonomy as they age, your work will have a meaningful impact. From everyday tasks like dressing and eating, to supporting individuals to work, socialise and pursue their passions, occupational therapists transform lives.

Career outcomes

As an occupational therapist, you'll work with individuals of all ages who face physical, cognitive, mental, developmental or emotional challenges, guiding them to perform everyday tasks that are essential to their wellbeing.

Accreditation

This program is accredited by the Occupational Therapy Council of Australia (OTC). Graduates are eligible to apply for registration as an occupational therapist with the Occupational Therapy Board of Australia (OTBA). The program is also approved by the World Federation of Occupational Therapists (WFOT).

Master of Physiotherapy (Graduate Entry)

SATAC code	ACM184	Duration	2 years full-time
Start date	Feb	Campus	Adelaide City
Prerequisites	<p>Applicants are required to provide evidence of satisfactory completion of prerequisite courses in the last 10 years in the following content areas:</p> <ul style="list-style-type: none"> • Statistics and Research Methods; AND • Human Anatomy; AND • Human Physiology. 		

Health and mobility are fundamental to our quality of life. When compromised, there are huge consequences for wellbeing. At Adelaide University, you'll gain the tools to excel as a physiotherapist with patient-centred care at the heart of your practice.

Career outcomes

You'll graduate with the skills and knowledge you need to help people of all ages reach their full potential. Physiotherapists can work across the globe, both as first contact professionals and in multidisciplinary healthcare teams. You might be head physio for the Matildas or the Socceroos. You could open your own physiotherapy clinic. Perhaps you'll support hospital patients recovering from surgeries, injuries or strokes.

Accreditation

The program is accredited by the Australian Physiotherapy Council and satisfies the academic requirements for registration as a physiotherapist with the Physiotherapy Board of Australia. Successful completion of the program is accepted for membership of the Australian Physiotherapy Association.

Global Learning

Broaden your horizons by completing part of your Adelaide University degree overseas.

Make overseas study a part of your degree.

Enjoy a wide range of personal, academic, and professional benefits through our overseas experiences, including the unique opportunity to immerse yourself in a new culture and connect with people from around the globe.

With new opportunities continually being added to Adelaide University's offerings, you can choose an experience that suits you.

adelaide.edu.au/study/global-learning

Activate

Challenge yourself and explore your passion.

Activate is designed to complement your Year 12 studies, with school approval and timetabling support part of the application process. You'll also have access to Adelaide University's academic support, digital platforms, and student services, including mentoring.

With flexible options for a range of students, Activate builds confidence, supports academic growth, and provides you with experience before stepping into your first year of university.

Future-making research

Our researchers create ideas that shape tomorrow.

They dream big, think deeply and challenge assumptions so we can make the world a better place. We forge dynamic partnerships, always collaborating to ensure our impact is future-defining, transformative and enduring.

Operating on a large scale, we have more capacity for breakthroughs and a greater appetite for change. We work with industry, government and community to make ideas real – from protecting our planet to shaping global food systems and supporting human health.

Our research will transform South Australia's economy and accelerate its leadership on a global scale.

Applying to Adelaide University

How to apply

Applications to most Adelaide University undergraduate degrees are made online via SATAC: satac.edu.au

Applications open in early August. Apply before 30 September to avoid paying the SATAC late fee. You can add and swap preferences for most programs until the Change of Preference deadline in early January 2027, except for a handful of programs (including Bachelor of Medical Studies/Doctor of Medicine, Bachelor of Science (Veterinary Bioscience), Bachelor of Oral Health, and Bachelor of Dental Surgery) which close to new preferences on 30 September.

Entry pathways

Adelaide University is committed to making higher education accessible to all, regardless of their educational background. We offer pathways to study that support a diverse range of learning needs. These options include Year 12 entry, International Baccalaureate (IB), Grades-based entry, STAT, TAFE, and our preparatory programs, Foundation Studies and the Aboriginal and Torres Strait Islander Pathway. To find out more about the available pathways, see pages 16 and 18.

Adjustment factors

SATAC centrally administers two South Australian universities adjustment factors schemes. The two schemes are the Universities Equity Scheme and the Universities Language, Literacy and Mathematics Scheme.

satac.edu.au/adjustment-factors

Degree intake

Many undergraduate degrees will allow students to commence study in February or July. Please refer to individual degrees to check whether midyear entry is available. For students looking to study 100% online we have intakes throughout the year. adelaide.edu.au/study

Deferring your studies

Most undergraduate degrees can normally defer for 12 months. Please refer to specific degrees for exceptions.

Concurrent degrees and double degrees

We offer concurrent degrees that allow students to study two qualifications simultaneously, to fast-track studies and enhance employability. Double degrees combine complementary disciplines and enable students to graduate with expertise in two areas and broaden career options.

Work-integrated learning (WIL)

Work-integrated learning offers students real-world experiences through internships and placements. Students are connected with valuable employability opportunities that allow them to apply their academic knowledge in real professional settings.

Additional entry requirements

Inherent requirements set the essential skills and knowledge all students must have to complete a course successfully.

English language requirements for international students

All international students undertaking an Australian Year 12 program are required to achieve a Pass grade or above in one of the approved English as a Second Language or English language subjects. If an applicant attempts but does not pass the English language subject, then alternative options, such as an acceptable English language proficiency test result, may be arranged.

Successful completion of the International Baccalaureate (IB) diploma meets the English language requirements of Adelaide University.

Unique Student Identifier

A Unique Student Identifier (USI) is your individual education number for life. It creates an online record of your education and training undertaken in Australia. If you are at university you need a USI. Without one, you cannot receive Commonwealth financial assistance, or your qualification or statement of attainment.

For more details, visit: usi.gov.au/students/get-a-usi

More information

Find answers to your questions using our online 'Frequently Asked Questions page', or our helpful staff can respond.

adelaide.edu.au/about/faqs

HELP (Higher Education Loan Program)

A HECS-HELP loan allows students to borrow from the Australian Government to cover some or all of their student contribution. To be eligible for HECS-HELP, you must be studying in a Commonwealth Supported Place.

Students who receive HECS-HELP will have part or their entire student contribution amount paid to Adelaide University by the Australian Government, and a HECS-HELP debt recorded for them with the Australian Taxation Office (ATO). Students then become responsible for repaying this debt later through the Australian taxation system.

For more information on HECS-HELP loans, visit: studyassist.gov.au

Student services and amenities fee

Students are charged an annual student services and amenities fee (SSAF) to assist with the funding of student services and amenities at Adelaide University. Eligible students may defer this fee to an SA-HELP loan.

Additional costs

Students may be required to pay for specialist equipment and reading materials, or may incur other incidental costs throughout their studies. Students are advised not to purchase any equipment until they receive their faculty/school handbook, available during Orientation.

2027 fees and costs

Student Contribution amounts for Commonwealth Supported Places are regulated by the Government. Contributions are calculated at the course level, not the program level, according to the area of study that each course falls within. As a guide the 2026 Student contribution bands are shown below. The Government indexes Student Contributions annually.

adelaideuni.edu.au/study/how-to-apply/entry-requirements/commonwealth-supported-students

Area of study	Student contribution per 1 EFTSL (48 units)
Agriculture, Education, English, Indigenous and Foreign Languages, Mathematics, Nursing, Statistics, Postgraduate Clinical Psychology	\$4,738
Allied Health, Built Environment, Computing, Engineering, Environmental Studies or Science, Other Health, Visual and Performing Arts, Surveying, Pathology, Professional Pathway Psychology or Professional Pathway Social Work	\$9,537
Medicine, Dentistry or Veterinary Science	\$13,558
Accounting, Administration, Commerce, Communications, Law, Society and Culture	\$17,399

What is 1 EFTSL?

Eligible Full Time Study Load (EFTSL) is the Australian Government's measure of a student enrolment load. One EFTSL is equal to full-time study for one student for one year. Each subject you enrol in is equal to 0.125 EFTSL.
